SUBJECT INDEX

Acetylene, in blood, a simple method to determine the solubility coefficient of, MALE, C. G., (*ARS*) 630P

Action of anaesthetics, an hypothesis to explain: the toad in the hole, JAMES, B., (*C*) 359

Acupan, (nefopam), intraoperative, effects of, DODSON, M. E., (*C*) 708

A–D circuit switch, Johannesburg, HUMPHREY, D., *et al.*, (*C*) *842*

Adenosine triphosphate, effects of, and temperature and magnesium concentrations on the contraction of actinomyosin isolated from halothane-sensitive and -insensitive German Landrace pigs, GREEN, R. A., *et al.* 319

Adrenaline, plasma concentrations of, and noradrenaline and renin activity during extradural blockade in dogs, STANEK, B., *et al.* 305

Adrenergic beta-receptor blockade, circulatory responses of the dog to acute isovolumic anaemia in the presence of high-grade, CLARKE, T. N. S., *et al.* 337

Adverse responses, anaphylactoid type, FISHER, M., (*C*) 355

Age, and pancuronium plasma clearance, SOMOGYI, A., (*C*) 360

Alcohol concentrations, blood, evaluation of breath-analysers for the accurate determination of, TILSLEY, W. C., *et al.*, (*ARS*) 235P

Alcuronium, relative potency of, and Org NC 45, pancuronium and tubocurarine in anaesthetized man, KRIEG, N., *et al.* 783

Allergic bronchoconstriction, i.v. lignocaine in, and reflex bronchoconstriction, DOWNES, H., *et al.* 873

Althesin, comparison with ICI 35 868 as an i.v. induction agent, preliminary experience, ROGERS, K. M., *et al.* 807

——, evidence for hepatic metabolism of, rate-limiting the duration of amnesia in the rat, SEAR, J. W., *et al.*, (*ARS*) 231P

Althesin–fentanyl, 24-hour anaesthesia in dogs. Time course of haemodynamic changes, MICHALOT, G. *et al.* 19

Alveolar oxygen concentration, during use of a circle system with carbon dioxide absorption, CONWAY, C. M., (*ARS*) 233P

Amethocaine, effect of baricity on spinal anaesthesia with, BROWN, D. T., *et al.* 589

4-Aminopyridine, and neostigmine, do they inhibit the antibacterial activity of antibiotics, BOOIJ, L. H. D. J., *et al.* 1097

——, antagonism of ketamine–diazepam anaesthesia by, in human volunteers, AGOSTON, S., *et al.* 367

——, fails to induce porcine malignant hyperthermia, HALL, G. M., *et al.*, (*C*) 707

Amnesia, benzodiazepine-induced: gone but not forgotten, CLARKE, P. R. F., *et al.*, (*ARS*) 231P

Anaemia, acute isovolumic, circulatory responses of the dog to, in the presence of high-grade adrenergic beta-receptor blockade, CLARKE, T. N. S., *et al.* 337

Anaesthesia, and maternal mortality, GIBBS, C. P., *et al.*, (*C*) 842

——, computer assistance in the control of depth of, MAPLESON, W. W., *et al.*, (*ARS*) 234P

——, consciousness during, MARTIN, L. V. H., (*C*) 241

——, death associated with, in Finland, HOVI-VIANDER, M. 483

——, for laryngoscopy, VIVORI, E., (*C*) 638

Anaesthesia, for termination of pregnancy, GRANT, I. S., (*E*) 711

——, humidification in, JEAL, D. E., (*C*) 466

——, mass spectrometers in, GRAHAM, J. M., *et al.*, (*C*) 1055

——, surgery and motilin concentrations: a preliminary report, RUTTER, D. V., *et al.*, (*ARS*) 953P

——, with nitrous oxide in oxygen, effect of, and fentanyl, on renal function in the artificially ventilated dog, HUNTER, J. M., *et al.* 343

Anaesthesia and the Patient with Heart Disease, BROWN, B. R. jr (editor), (*R*) 845

Anaesthesia for Children. Including Aspects of Intensive Care, BROWN, T. C. K., *et al.*, (*R*) 965

Anaesthesia for eye surgery, SPENCE, A. A., (*E*) 641

——, general considerations, ADAMS, A. K., *et al.* 663

——, in children, ARTHUR, D. S., *et al.* 681

Anaesthesia for Obstetrics, SHNIDER, S. M., *et al.* (editors), (*R*) 1166

Anaesthetic, a new i.v., ICI 35 868: preliminary findings in 20 patients, ROGERS, K. M., *et al.*, (*ARS*) 230P

Anaesthetic activity, animal studies of ICI 35 868, GLEN, J. B. 731

Anaesthetic agent, a new i.v., the animal pharmacology of ICI 35 868, GLEN, J. B., (*ARS*) 230P

——, influence of, on survival following endotoxin shock, BAVISTER, P. H., *et al.*, (*ARS*) 232P

Anaesthetic drugs, and narcotic drugs, action on contractility of human bronchial muscles, ROTHHAMMER, A., *et al.*, (*EAA*) 106P

Anaesthetic machine, the,—a study of function and design, BOQUET, G., *et al.* 61

Analgesic plasma concentrations, COOKSON, R. F., (*C*) 959

Analgesic-supplemented anaesthesia, a double-blind comparison between fentanyl and buprenorphine in, KAY, B. 453

Analysers, evaluation of the Datex CD-101 and Godart Capnograph Mark II infra-red carbon dioxide, BLACKBURN, J. P., *et al.* 551

Anaphylactoid type, adverse responses, FISHER, M., (*C*) 355

Angina, Prinzmetal's variant, during extradural anaesthesia, KRANTZ, E. M., *et al.* 945

Angiotensin II, half-life of, in the conscious and barbiturate-anaesthetized rat, CHAPMAN, B. J., *et al.* 389

Animal pharmacology, of ICI 35 868: a new i.v. anaesthetic agent, GLEN, J. B., (*ARS*) 230P

Animal studies, of the anaesthetic activity of ICI 35 868, GLEN, J. B. 731

Annual Reports in Medicinal Chemistry, Vol. 14, HESS, J.-J. (editor), (*R*) 1058

Antacid, inefficiency of, in prevention of aspiration pneumonia, TOUNG, T., *et al.*, (*C*) 241

Antibacterial activity, of antibiotics, do neostigmine and 4-aminopyridine inhibit the, BOOIJ, L. H. D. J., *et al.* 1097

Antibiotics, do neostigmine and 4-aminopyridine inhibit the antibacterial activity of?, BOOIJ, L. H. D. J., *et al.* 1097

——, preliminary review of the interactions of Org NC 45 with anaesthetics and, in animals, KRIEG, N., *et al.* 33S

Anticholinergic premedication, MIRAKHUR, R. K., *et al.*, (*C*) 467

Apparatus failure—cause for concern, MUIR, J., *et al.*, (*C*) 705
Aprotinin, analgesic effect of, in the rat its inhibition by naloxone, NOVELLI, G. P., *et al.* 1107
A Practice of Anaesthesia, 4th edn, CHURCHILL DAVIDSON, H. C. (editor), (*R*) 362
Arrhythmias, and the carotid artery, COLLYER, J., (*C*) 708
Arterial pressure, effect of i.v. practolol during microlaryngoscopy on, and heart rate, blood glucose and lipolysis, WERNER, O., *et al.* 91
Arteriovenous shunts, pulmonary, during halothane anaesthesia in dogs, PAVLIN, D. J., *et al.* 763
Artery-to-muscle onset time, for neuromuscular blocking drugs, MINSAAS, B., *et al.* 403
Arthroplasty, total hip, comparative effects of induced hypotension and normovolaemic haemodilution on blood loss in, BARBIER-BÖHM, G., *et al.* 1039
Artificially ventilated dog, effect of anaesthesia with nitrous oxide in oxygen and fentanyl on renal function in the, HUNTER, J. M., *et al.* 343
Aspiration pneumonia, inefficiency of antacid in prevention of, TOUNG, T., *et al.*, (*C*) 241
Aspiration syndrome, pathophysiological aspects of the early stage, DRAXLER, V., *et al.*, (*EAA*) 106P
Atelectatic lungs, increased vascular resistance in, relative contribution of active vasoconstriction and mechanical obstruction, BJERTNAES, L. J., *et al.*, (*EAA*) 105P
Atracurium, experimental studies with, a new neuromuscular blocking agent, HUGHES, R., *et al.*, (*ARS*) 238P
——, further studies with, HUGHES, R., *et al.*, (*ARS*) 956P
——, preliminary studies with, in anaesthetized man, HUNT, T. M., *et al.*, (*ARS*) 238P
——, recovery from neuromuscular blockade by, HUGHES, R., *et al.*, (*ARS*) 634P
Atropine, cardiac effects of, and gallamine in patients receiving suxamethonium, VIBY-MOGENSEN, J., *et al.* 1137
——, comparative study of, and glycopyrrolate, on suxamethonium-induced changes in cardiac rate and rhythm, COZANITIS, D. A., *et al.* 291
——, evaluation of, and glycopyrrolate as adjuncts to reversal of non-depolarizing neuromuscular blocking agents in a "true-to-life" situation, COZANITIS, D. A., *et al.* 85
——, plasma concentrations, determined by radioimmunoassay after single dose i.v. and i.m. administration, BERGHEM, L., *et al.* 597
Automatic Ventilation of the Lungs (3rd edn), MUSHIN, W. W., *et al.*, (*R*) 965
Aware, on being, by request. *A mother's unplanned request during the course of a Caesarean section under general anaesthesia,* TUNSTALL, M. E., *et al.* 1049

Banked blood, fine screen filtration of: effect on red cell survival, BROWNING, J. D., *et al.* 299
Barbiturate-anaesthetized, rat, half-life of angiotensin II in the conscious and, CHAPMAN, B. J., *et al.* 389
Baricity, effect of, on spinal anaesthesia with amethocaine, BROWN, D. T., *et al.* 589
Benecid, prolongation of thiopentone anaesthesia by, KAUKINEN, S., *et al.* 603
Benzodiazepine-induced amnesia: gone but not forgotten, CLARKE, P. R. F., *et al.*, (*ARS*) 231P
Benzodiazepines, comparison of three, for oral premedication in minor gynaecological surgery, MALE, C. G., *et al.* 429
——, oral, effect on memory, MCKAY, A. C., *et al.* 1247
Beta-adrenergic blockade, and the metabolic response to surgery, COOPER, G. M., *et al.* 1231
Biliary excretion, effect on ketamine anaesthesia in the rat, IRELAND, S. J., *et al.* 23
Block, supraclavicular brachial plexus, using a nerve stimulator and an insulated needle, YASUDO, I., *et al.* 409
Blockage, delayed, in an extradural catheter, RAITT, D. G., (*C*) 242
Blocking drugs, myoneural, differential effects of, on neuromuscular transmission, WILLIAMS, N. E., *et al.* 1111
Blood alcohol concentrations, evaluation of breath-analysers for the accurate determination of, TILSLEY, W. C., *et al.*, (*ARS*) 235P
Blood concentrations, of nitrous oxide in theatre personnel, KRAPEZ, J. R., *et al.* 1143
Blood-gas tension measurement, in anaesthesia by bubble equilibration and mass spectrometry, MAPLESON, W. W., *et al.* 1061
Blood loss, comparative effects of induced hypotension and normovolaemic haemodilution on, in hip surgery, BARBIER-BÖHM, G., *et al.*, (*EAA*) 103P
——, comparative effects of induced hypotension and normovolaemic haemodilution on, in total hip arthroplasty, BARBIER-BÖHM, G., *et al.* 1039
Blood pressure, effect of i.v. practolol during microlaryngoscopy on, and arterial pressure, heart rate and lipolysis, WERNER, O., *et al.* 91
Bolus, i.v., pharmacokinetics of tubocurarine administered by combined, and influsion, RAMZAN, M. I., *et al.* 893
——, *v.* incremental administration of thiopentone, comparison of the cardiovascular effects of, SELTZER, J. L., *et al.* 527
Bolus doses, changes in the cerebral function monitor compared with changing plasma concentrations following administration of i.v. anaesthetics by repeated, FRANK, M., *et al.*, (*ARS*) 951P

Dental Anaesthesia and Analgesia (Local and General), ALLEN, G. D. (editor), (*R*) 639
Development of Volatile Inhalational Anaesthetics, Monographs in Anaesthesiology, Volume 6, DOBKIN, A. B. (editor), (*R*) 361
Developments in Clinical Nutrition. (Proceedings of a Symposium at the Royal College of Physicians, London, October 20, 1978), JOHNSTON, I. D. A., *et al.*, (*R*) 361
Diabetes Mellitus, DRURY, M. I., (*R*) 244

Book reviews
Electrocardiography for the Anaesthetist, 4th edn, ROLLASON, W. N., (*R*) 710
General Anaesthesia, Vols 1 and 2, GRAY, T. C., *et al.* (editors), (*R*) 1165
Handbook of British Anaesthesia 1979/80
Illustrated Handbook in Local Anaesthesia, 2nd edn., ERIKSSON, E. (editor), (*R*) 560
Key Words in Anaesthesiology, 2nd edn, GREENE, N. M., (*R*) 846
Lactate in Acute Conditions. International Symposium on Lactate in Acute Conditions, Basel, 1978, BOSSART, H., *et al.* (editors), (*R*) 639
Local Analgesia, JOLLY, C., (*R*) 639
Lung function, Assessment and Application in Medicine, 4th edn, COTES, J. E., (*R*) 1057
Malignant Hyperthermia. International Anesthesiology Clinics, Vol. 17, No. 4, BRITT, B. A. (editor), (*R*) 846
Mechanisms of Pain and Analgesic Compounds. (Miles International Symposium Series, No. 11), BEERS, R. F., jr, *et al.*, (*R*) 964
Medical Management of the Critically Ill, HANSON, G., *et al.* (editors), (*R*) 468
Medical Problems and the Anaesthetist, KAUFMAN, L., *et al.*, (*R*) 560
Monitoring Cerebral Function: Long-term Recording of Cerebral Electrical Activity, PRIOR, P., (*R*) 640
Monitoring Patients in The Operating Room, GRAVENSTEIN, J. S., *et al.* (editors), (*R*) 244
Muscle Relaxants, 2nd edn, FELDMAN, S. A., (*R*) 640
Outpatient Anaesthesia, BROWN, B. R. (editor), (*R*) 243
Pain, Association for Research in Nervous and Mental Disease, Volume 58, BONICA, J. J. (editor), (*R*) 709
Pediatric Anesthesia Handbook, LEVIN, R. M., (*R*) 845
Practical Anesthetic Pharmacology, ATTIA, R. R., *et al.* (editors), (*R*) 244
Practical Dental Anaesthesia, KILPATRICK, A., (*R*) 468
Preparation for Anaesthesia, STEVENS, A. J. (editor), (*R*) 966
Principles and Practice of Blood-gas Analysis, ADAMS, A. P., *et al.*, (*R*) 362
Renal Function in Anaesthesia and Surgery, BEVAN, D. R., (*R*) 709
Respiratory Intensive Care Nursing, 2nd edn from Beth Israel Hospital, Boston, MORRISON, M. L. (editor), (*R*) 1058
Self-Assessment of Current Knowledge in Anesthesiology, 2nd edn, TRICKEY, D. L., (*R*) 709
The Control of Chronic Pain, LIPTON, S., (*R*) 560
The Parisian Education of an American Surgeon: Letters of Jonathan Mason Warren (1832–1835), JONES, R. M. (notes and introduction), (*R*) 844
Topics in Anaesthesia and Intensive Care, THORNTON, J. A., *et al.*, (*R*) 361
Breath-analysers, evaluation of, for the accurate determination of blood alcohol concentrations, TILSLEY, W. C., *et al.*, (*ARS*) 235P
Breathing, a simple and inexpensive device for administration of continuous positive airway pressure, BAGGER, M. 629
Bronchial muscles, human, action of narcotic and anaesthetic drugs on contractility of, ROTHHAMMER, A., *et al.*, (*EAA*) 106P
Bronchoconstriction, reflex and allergic, i.v. lignocaine in, DOWNES, H., *et al.* 873
Bubble equilibration, blood-gas tension measurement in anaesthesia by, and mass spectrometry, MAPLESON, W. W., *et al.* 1061
Buffered glutaraldehyde, adverse effects of, on the Heidbrink expiratory valve, MOSTAFA, S. M. 223
Bupivacaine, combined with 2-chloroprocaine, ROSENBLATT, R. M., (*C*) 466
——, differential nerve block by, and 2-chloroprocaine, ROSENBERG, P. H., *et al.* 1183
——, effect of sodium bicarbonate on the kinetics of, in i.v. regional anaesthesia in dogs, DONCHIN, Y., *et al.* 969
——, response of MHS swine to i.v. infusion of lignocaine and, HARRISON, G. G., *et al.* 385
Bupivacaine hydrochloride, comparison with carbonated bupivacaine for extradural anaesthesia, BROWN, D. T., *et al.* 419
——, motor nerve conduction in intravenous regional anaesthesia with, MAGORA, F., *et al.* 1123
——, prolonged effect of, after cuff release in i.v. regional anaesthesia, MAGORA, F., *et al.* 1131
Buprenorphine, a double-blind comparison with fentanyl in analgesic-supplemented anaesthesia, KAY, B. 453
——, clinical effects during and after operation, MCQUAY, H. J., *et al.* 1013

Caesarean section, associated with gross obesity, HODGKINSON, R., *et al.* 919
——, experiences with lumbar extradural analgesia for, CRAWFORD, J. S. 821
——, extradural block in patients who have previously undergone, CARLSSON, C. *et al.* 827
——, pancuronium in, and its placental transfer, ABOULEISH, E., *et al.* 531
——, plasma cortisol concentrations during, NAMBA, Y., *et al.* 1027
Calcium, interaction of, and potassium, with neuromuscular blocking agents, WAUD, B. E., *et al.* 863
Calcium chloride, comparative effects of, and calcium gluceptate, DROP, L. J., *et al.* 501
Calcium gluceptate, comparative effects of calcium chloride and, DROP, L. J., *et al.* 501
Calculator, programmable, PORCELIJN, T., *et al.*, (*C*) 465
Calibration, of some Wright peak flow meters, FISHER, J., *et al.* 461
Canine small intestine, some effects of i.v. anaesthetic agents on the, HEALY, T. E. J., *et al.*, (*ARS*) 635P
Capacitance vessels, constrictive effect of pancuronium on, LEE, C., *et al.* 261
Carbonated bupivacaine, comparison with bupivacaine hydrochloride for extradural anaesthesia, BROWN, D. T., *et al.* 419
Carbon dioxide analysers, infra-red, evaluation of the Datex CD-101 and Godart Capnograph Mark II, BLACKBURN, J. P., *et al.* 551
Carbon dioxide exchange, mass spectrometer measurement of, and oxygen uptake during cardiopulmonary bypass, ABBOTT, T. R., *et al.* 29
Carbonic anhydrase, activity of, in stored blood, PONTE, J., *et al.* 867
Cardiac effects, of atropine and gallamine in patients receiving suxamethonium, VIBY-MOGENSEN, J., *et al.* 1137
Cardiac rate, and rhythm, comparative study of atropine and glycopyrrolate on suxamethonium-induced changes in, COZANITIS, D. A., *et al.* 291
Cardiac surgery, a study in patients undergoing. Pharmacokinetics of high-dose fentanyl, BOVILL, J. G., *et al.* 795
Cardiac vagus nerve, effects of non-depolarizing neuromuscular blocking agents on the, in guineapigs, LEE SON, S., *et al.* 981
Cardiomotorvagus, effect of fentanyl on reflexly evoked changes in heart rate mediated by, SCOTT, A., *et al.*, (*ARS*) 229P

Cardiopulmonary bypass, mass spectrometer measurement of oxygen uptake and carbon dioxide exchange during, ABBOTT, T. R., *et al.* 29
Cardiorespiratory effects, of high frequency intermittent positive pressure ventilation in the dog, CHAKRABARTI, M. K., *et al.* 475
Cardiothoracic surgery, *a prospective study in patients undergoing*. Radial artery cannulation, DAVIES, F. M., *et al.* 41
Cardiovascular actions, comparison of the, of Org NC 45 with those produced by other non-depolarizing neuromuscular blocking agents in experimental animals, MARSHALL, R. J., *et al.* 21S
Cardiovascular effects, comparison of the, of bolus *v.* incremental administration of thiopentone, SELTZER, J. L., *et al.* 527
——, of midazolam (RO 21-3981) in the dog, WHITWAM, J. G., *et al.*, (*ARS*) 954P
Cardiovascular function, effects of enflurane on, in dogs with induced chronic mitral valve disease, COCKINGS, E., *et al.* 1087
Cardiovascular Physiology for Anesthesiologists, GORDON, R. J., *et al.*, (*R*) 640
Cardiovascular responses, to the sitting position, ALBIN, M. S., *et al.*, (*C*) 961
Carotid artery, arrhythmias and the, COLLYER, J., (*C*) 708
Cat, changes in the respiratory pattern induced by halothane in the, NISHINO, T., *et al.* 1191
——, comparison of the neuromuscular blocking properties of Org NC 45 and pancuronium in the, rat and rhesus monkey, DURANT, N. N., *et al.* 723
Catheter electrode, *in vivo,* on-line P_{O_2} and P_{N_2O} analysis with an, BROOKS, W. N., *et al.* 715
Cats, effect of experimental cholestasis on neuromuscular blocking drugs in, WESTRA, P., *et al.* 747
Cell bodies, changes of the, in the facial nucleus after facial nerve block, TOTOKI, T., *et al.* 563
Central haemodynamic effect, and forearm vascular effect, of morphine in patients after open heart surgery, SAMUEL, I. O., *et al.* 1237
Central nervous system, an invertebrate model for the study of general anaesthetic agents in the, LOCK, P. T., *et al.*, (*ARS*) 952P
——, are there long-term effects of ketamine on the?, SCHORN, T. O. F., *et al.*, (*E*) 967
Cerebral function monitor, changes in, compared with changing plasma concentrations following administrations of i.v. anaesthetics by repeated bolus doses, FRANK, M., *et al.*, (*ARS*) 951P
Cervical extradural analgesia, and thoracic extradural analgesia, respiratory function during, in patients with normal lungs, TAKASAKI, M., *et al.* 1271
Chest and abdomen, dynamic behaviour of, in anaesthetized piglets, during rapid insufflation, ARBORELIUS, M. jr, *et al.* 5
Children, anaesthesia for eye surgery in, ARTHUR, D. S., *et al.* 681
——, behaviour of unsedated, in the anaesthetic room, BEEBY, D. G., *et al.* 279
——, extrapyramidal syndromes after premedication with droperidol in, DUPRÉ L. J., *et al.* 831
——, ketamine requirement in, WILLATTS, S. M., (*C*) 840
Chlormethiazole, prolonged infusion of, in intensive care, SCOTT, D. B., *et al.* 541
2-Chloroprocaine, combined with bupivacaine, ROSENBLATT, R. M., (*C*) 466
——, differential nerve block by, and bupivacaine, ROSENBERG, P. H., *et al.* 1183
Cholecystectomy, posterior intercostal nerve block for pain relief after. Anatomical basis and efficacy, NUNN, J. F. *et al.* 253
Cholestasis, experimental, effect on neuromuscular blocking drugs in cats, WESTRA, P., *et al.* 747
Circle system, alveolar oxygen concentration during use of a, with carbon dioxide absorption, CONWAY, C. M., (*ARS*) 233P
——, use of low fresh gas flow of Entonox with the, ALLISON, R. H., *et al.*, (*ARS*) 955P
Circulatory responses, of the dog to acute isovolumic anaemia in the presence of high-grade adrenergic beta-receptor blockade, CLARKE, T. N. S., *et al.* 327
Clinical and Resuscitative Data, 2nd edn, DUNNILL, R. P. H., *et al.* (editors), (*R*) 468
Clinical effects, of buprenorphine during and after operation, MCQUAY, H. J., *et al.* 1013
——, of tofizopam, nitrazepam and placebo as oral premedicants, comparative study, PAKKANEN, A., *et al.* 1009
Clinical experiences, first, with Org NC 45, CRUL, J. F., *et al.* 49S
Clinical observations, preliminary, with Org NC 45, SCHAER, H., *et al.* 65S
Clinical Pharmacology, 24th edn, GIRDWOOD, R. M. (editor), (*R*) 846
Clinical Pharmacology: Basic Principles in Therapeutics, 2nd edn, MELMON, K. L., *et al.* (editors), (*R*) 243
CO_2-bupivacaine, for continuous extradural anaesthesia in obstetrics, DICK, W., *et al.*, (*EAA*) 102P
Colloid osmotic pressure, changes in, and plasma albumin associated with extracorporeal circulation, SANCHEZ DE LEON, R., *et al.*, (*ARS*) 630P
Colon blood flow, effects of subarachnoid spinal nerve blood and arterial P_{CO_2} on, in the dog, AITKENHEAD, A. R., *et al.* 1071
——, in the dog, effects of halothane and hypocapnia on, AITKENHEAD, A. R., *et al.*, (*ARS*) 634P
Complement-mediated reactions, to diazepam with Cremophor as solvent (Stesolid MR), HÜTTEL, M. S., *et al.* 77
Computer, assistance, in the control of depth of anaesthesia, MAPLESON, W. W., *et al.*, (*ARS*) 234P
Computer-assisted decision making in anaesthesia, HARRISON, M. J., *et al.*, (*ARS*) 629P
Consciousness, during anaesthesia, MARTIN, L. U. H., (*C*) 241
Constrictive effect, of pancuronium on capacitance vessels, LEE, C., *et al.* 261
Continuous positive pressure breathing, a simple and inexpensive device for administration of, BAGGER, M. 627
Contractility, of human bronchial muscles, action of narcotic and anaesthetic drugs on, ROTHHAMMER, A., *et al.*, (*EAA*) 106P
Contracture, of smooth muscle in malignant hyperpyrexia, MITCHELL, H. W., *et al.*, (*C*) 637
Control of the eye, during general anaesthesia for intraocular surgery, HOLLOWAY, K. B. 671
Controlled ventilation, optimum fresh gas and ventilatory requirements during, with T-piece systems, CONWAY, C. M., (*EAA*) 106P
Controversy in Anaesthesia, ECKENHOFF, J. E. (editor), (*R*) 1057
Coronary artery, left anterior descending, myocardial function and critical constriction of the: effects of enflurane, CUTFIELD, G. R., *et al.*, (*ARS*) 953P
——, left circumflex, effect of halothane on the performance of the heart in the case of critical constriction of the, FRANCIS, C. M., *et al.*, (*ARS*) 631P
Coronary artery disease, comparison of haemodynamic effects of metocurine and pancuronium in patients with, HEINONEN, J., *et al.* 931

Cortisol, plasma concentrations during Caesarean section, NAMBA, Y., *et al.* 1027
Cremophor, (Stesolid MR) as solvent, complement-mediated reactions to diazepam, with, HÜTTEL, M. S., *et al.* 77
Cremophor-dissolved anaesthetics, and plasma viscosity, GRAMSTAD, L., *et al.*, (*EAA*) 108P
Cuff release, prolonged effect of bupivacaine hydrochloride after, in i.v. regional anaesthesia, MAGORA, F., *et al.* 1131
Cultured cells, protective effect of steroids on, damaged by high concentrations of oxygen, STURROCK, J. E., *et al.* 567
Cut-out system, and temperature alarm for use with heated water humidifier, WHITEHURST, P., *et al.* 557

Dangerous Mistakes in Drug Administration: 1979. Medico-Pharmaceutical Forum, (*R*) 243
Dantrolene, and the treatment of malignant hyperthermia, HALL, G. M., (*E*) 847
Datex CD–101, infra-red carbon dioxide analyser, evaluation of, and Godart Capnograph Mark II, BLACKBURN, J. P., *et al.* 551
Death, associated with anaesthesia in Finland, HOVI-VIANER, M. 483
Decision making, in anaesthesia, computer-assisted, HARRISON, M. J., *et al.*, (*ARS*) 629P
Dental Anaesthesia and Analgesia (Local and General), ALLEN, G. D., (editor), (*R*) 639
Dental anaesthesia, outpatient paediatric, enflurane in. A comparison with halothane, HOYAL, R. H. A., *et al.* 219
Dental surgery, pain relief in, SANDO, M. J. W., (*C*) 959
Dentistry, conservative, i.v. flunitrazepam and i.v. diazepam in. *A cross-over trial,* DIXON, R. A., *et al.* 517
Development of Volatile Inhalational Anaesthetics, Monographs in Anaesthesiology, Volume 6, DOBKIN, A. B. (editor), (*R*) 361
Developments in Clinical Nutrition. (Proceedings of a Symposium at the Royal College of Physicians, London, October 20, 1978), JOHNSTON, I. D. A., *et al.* (editors), (*R*) 361
Diabetes Mellitus, DRURY, M. I., (*R*) 244
Diazepam, and the neuromuscular junction, BRADSHAW, E. G., *et al.*, (*C*) 960
——, and the neuromuscular junction, CARNIE, J., (*C*) 960
——, complement-mediated reactions to, with Cremophor as solvent (Stesolid MR), HÜTTEL, M. S., *et al.* 77
——, i.v., and i.v. flunitrazepam in conservative dentistry. *A cross-over trial,* DIXON, R. A., *et al.* 517
——, i.v., comparison with oral temazepam. Sedation for upper gastro-intestinal endoscopy, DOUGLAS, J. G., *et al.* 811
——, local reactions after i.v. infections of, flunitrazepam and isotonic saline, MIKKELSEN, H., *et al.* 817
——, local reactions to i.v., in three different formulations, SCHOU OLESEN, A., *et al.* 609
——, oral, comparison with triclofos and flunitrazepam as premedicants in children undergoing otolaryngological surgery, LINDGREN, L., *et al.* 283
——, placental transfer and neonatal effects of, when administered to women just before delivery, MCALLISTER, C. B. 423
——, preliminary *in vitro* study of, and droperidol on oestrus rat uterus, KHAN, A. A. 349
Dioxonium, behaviour of the neuromuscular blockade produced by suxamethonium or, TAMMISTO, T., *et al.*, (*EAA*) 102P
Distribution, and solubility of halothane, in human blood, PANG, Y. C., *et al.* 851
Dog, cardiorespiratory effects of high frequency intermittent positive pressure ventilation in the, CHAKRABARTI, M. K., *et al.* 475
——, cardiovascular effects of midazolam (RO 21-3981) in the, WHITWAM, J. G., *et al.*, (*ARS*) 954P
——, circulatory responses to acute isovolumic anaemia in the presence of high-grade adrenergic beta-receptor blockade, CLARKE, T. N. S., *et al.* 337
——, effects of halothane and hypocapnia on colon blood flow in the, AITKENHEAD, A. R., *et al.*, (*ARS*) 634P
——, effects of halothane and hypocapnia on colon blood flow and P_{CO_2} on colon blood flow in the dog, AITKENHEAD, A. R., *et al.* 1071
Dog mesenteric artery, direct effects of trimetaphan on the, and saphenous vein, CASTRO-TAVARES, J. 769
Dogs, effects of enflurane on cardiovascular function in, with induced chronic mitral valve disease, COCKINGS, E., *et al.* 1087
——, effect of sodium bicarbonate on the kinetics of bupivacaine in i.v. regional anaesthesia in, DONCHIN, Y., *et al.* 969
——, physostigmine antagonizes morphine-induced respiratory depression but not analgesia in, and rabbits, WEINSTOCK, M., *et al.* 1171
——, pulmonary arteriovenous shunts during halothane anaesthesia in, PAVLIN, D. J., *et al.* 763
Dopamine, infusion, oxygen transport during, CHAMBERLAIN, J. H., (*C*) 841
Dopamine infusion, oxygen transport during, SCOTT, A., *et al.*, (*C*) 962
Dopamine-induced, increase in effective renal plasma flow in dogs, effect of droperidol on, BRADSHAW, E. G., *et al.* 879
Dorsal pedis artery, occlusion of, HURTER, D., (*C*) 705
Doxapram, effects of, on postoperative pulmonary complications following thoracotomy, SEBEL, P. S., *et al.* 81
Droperidol, effect of, on dopamine-induced increase in effective renal plasma flow in dogs, BRADSHAW, E. G., *et al.* 879
——, preliminary *in vitro* study of, and diazepam on oestrus rat uterus, KHAN, A. A. 349
——, premedication with, extrapyramidal syndromes after, in children, DUPRÉ, L. J., *et al.* 831
Drug reactions, and the liver, NIMMO, W. S., (*E*) 1059
Duchenne muscular dystrophy, anaesthesia-induced rhabdomyolysis, BOLTSHAUSER, E., *et al.*, (*C*) 559
Duration of action, of i.v. drugs and the intensity, NORMAN, J., (*E*) 1167
Dynamic behaviour, of the chest and of the abdomen in anaesthetized piglets during rapid insufflation, ARBORELIUS, M. jr, *et al.* 5
Dystrophy, Duchenne muscular, anaesthesia-induced rhabdomyolysis in, BOLTSHAUSER, E., *et al.*, (*C*) 559

Ehlers–Danlos syndrome, and obstetric anaesthesia, ABOULEISH, E. 1283
Electrocardiography for the Anaesthetist, 4th edn, ROLLASON, W. N., (*R*) 710
Endotoxin shock, influence of anaesthetic agent on survival following, BAVISTER, P. H., *et al.*, (*ARS*) 232P
Enflurane anaesthesia, acute hepatitis following, DANILEWITZ, M. D., *et al.* 1151
——, and halothane, influence on respiratory airflow resistance and specific conductance in anaesthetized man, LEHANE, J. R., *et al.* 773
——, and halothane, influence on the neuromuscular effects of Org NC 45, FOLDES, F. F., *et al.* 64S

Enflurane anaesthesia, and halothane, relationship of interval between administrations to enzyme changes following repeat, DUNDEE, J. W., *et al.*, (*ARS*) 630P
——, effects of, and halothane on liver blood flow and oxygen consumption in the greyhound, HUGHES, R. L., *et al.* 1079
——, effects of, myocardial function and critical constriction of the left anterior descending coronary artery, CUTFIELD, G. R., *et al.*, (*ARS*) 953P
——, effects of, on cardiovascular function in dogs with induced mitral valve disease, COCKINGS, E., *et al.* 1087
——, has no effect on haemopoiesis in mice, BADEN, J. M., *et al.* 471
——, in outpatient dental anaesthesia. A comparison with halothane, HOYAL, R. H. A., *et al.* 219
Enfluratec vaporizer, DAVIES, J. R., (*C*) 356
Entonox, use of low fresh gas flow of, with the circle system, ALLISON, R. H., *et al.*, (*ARS*) 955P
Enzyme changes, following repeat halothane and enflurane, relationship of interval between administrations to, DUNDEE, J. W., *et al.*, (*ARS*) 630P
Enzymatic evidence, of liver dysfunction following repeat administrations of halothane, BLACK, G. W., *et al.*, (*ARS*) 235P
Epicutaneous application, new anaesthetic formulation for, tested for cutting split skin grafts, OHLSÉN, L., *et al.* 413
Equations, CAHALAN, M. K., (*C*) 356
Etomidate, JACK, N. T. M., (*C*) 843
——, induction of anaesthesia with: haemodynamic study of 36 patients, (CRIADO, A., *et al.* 803
Exercise, mild, effect of, and food on individuals susceptible to malignant hyperpyrexia, CAMPBELL, I. T., *et al.*, (*ARS*) 236P
Experimental cholestasis, effect of, on neuromuscular blocking drugs in cats, WESTRA, P., *et al.* 747
Expiratory valve, Heidbrink, adverse effects of buffered glutaraldehyde on, MOSTAFA, S. M. 223
External feedback mechanisms, ASHBURY, A. J., *et al.*, (*ARS*) 633P
Extracorporeal circulation, changes in colloid osmotic pressure and plasma albumin associated with, SANCHEZ DE LEON, R., *et al.*, (*ARS*) 630P
——, effects of, on the renin–angiotensin–aldosterone system, ARROYO, J. L., *et al.*, (*EAA*) 107P
Extradural anaesthesia, comparison of carbonated bupivacaine and bupivacaine hydrochloride for, BROWN, D. T., *et al.* 419
——, in obstetrics, CO_2-bupivacaine for continuous, DICK, W., *et al.*, (*EAA*) 102P
——, Prinzmetal's variant angina during, KRANTZ, Z. M., *et al.* 945
Extradural block, effects of concentration of local anaesthetic drugs in, SCOTT, D. B., *et al.* 1033
——, in patients who have previously undergone Caesarean section, CARLSSON, C., *et al.* 827
Extradural blockade, in dogs, plasma concentrations of noradrenaline and adrenaline and plasma renin activity during, STANEK, B., *et al.* 305
Extradural catheter, delayed blockage in an, RAITT, D. G., (*C*) 242
Extradural fentanyl, analgesic action of, WOLFE, M. J., *et al.*, (*C*) 357
Extradural morphine, analgesia, observations on, in various pain conditions, MAGORA, F., *et al.* 247
——, and i.m. morphine, experimental comparison of, TORDA, T. A., *et al.* 939
——, respiratory depression after, CHRISTENSEN, V., (*C*) 841
Extradural pethidine, BAPAT, A. R., *et al.*, (*C*) 637
Extradural solutions, rate of injection and spread of, BURN, J. M. B., *et al.*, (*C*) 707
Extradural space, DUCROW, M., (*C*) 241
Extrapyramidal syndromes, after premedication with droperidol in children, DUPRÉ, L. J., *et al.* 831
Extubation, early, after Fontan operation. *A clinical report,* SCHULLER, J. J., *et al.* 999
Eye, as a mirror of systemic disease, CLIFFORD ROSE, F., *et al.* 695
——, human, functional organization of, JAY, J. L. 649
——, local anaesthesia and the, ALLEN, E. D., *et al.* 689
Eye surgery, anaesthesia for, SPENCE, A. A., (*E*) 641
——, the changing pattern of, FOULDS, W. S. 643

Facial nerve block, changes of the cell bodies in the facial nucleus after, TOTOKI, T., *et al.* 563
Facial nucleus, changes of the cell bodies in the, after facial nerve block, TOTOKI, T., *et al.* 563
Failure of apparatus, cause for concern, MUIR, J., *et al.*, (*C*) 705
Fazadinium, a pharmacodynamic model for, HULL, C. J., *et al.*, (*ARS*) 632P
Fazadinium pharmacokinetics, in patients with liver disease, DUVALDESTIN, P., *et al.* 789
Feedback mechanisms, external control of neuromuscular block by, ASHBURY, A. J., *et al.*, (*ARS*) 633P
Fellowships, Royal Society/Japanese Society for the Promotion of Science, NUNN, J. F., (*C*) 638
Fentanyl, a double-blind comparison with buprenorphine in analgesic-supplemented anaesthesia, KAY, B. 453
——, and the metabolic response to surgery, HALL, G. M., (*E*) 561
——, by infusion—a method of total dose reduction, COLE, A. G. H., *et al.*, (*ARS*) 229P
——, comparison with the respiratory effects of a new opiate analgesic, R 39209, in the rabbit, BROWN, J. H., *et al.* 1101
——, effect of, and anaesthesia with nitrous oxide in oxygen, on renal function in the artificially ventilated dog, HUNTER, J. M., *et al.* 343
——, effect on reflexly evoked changes in heart rate mediated by the cardiomotorvagus, SCOTT, A., *et al.*, (*ARS*) 229P
——, extradural, analgesic action of, WOLFE, M. J., *et al.*, (*C*) 357
——, infusion model for, based on pharmacokinetic analysis, HENGSTMANN, J. H., *et al.* 1021
——, pharmacokinetics of high-dose. *A study in patients undergoing cardiac surgery,* BOVILL, J. G., *et al.* 795
——, plasma concentrations during and after anaesthesia, ventilatory depression related to, GILL, K. J., *et al.*, (*ARS*) 632P
——, plasma concentrations of, in normal surgical patients and those with severe renal and hepatic disease, CORALL, I. M., *et al.*, (*EAA*) 101P
Fentanyl–Althesin, anaesthesia in dogs. Time course of haemodynamic changes, MICHALOT, G., *et al.* 19
Fine screen filtration, of banked blood: effect on red cell survival, BROWNING, J. D., *et al.* 299
Flunitrazepam, comparison of the subjective effects and plasma concentrations following oral and i.m. administration of, in volunteers, CLARKE, R. S. J., *et al.* 437
——, comparison of the subjective effects and plasma concentrations following oral and i.m. administration of, in patients, MCGOWAN, W. A. W., *et al.* 447
——, i.v., and diazepam, i.v., in conservative dentistry. *A cross-over trial,* DIXON, R. A., *et al.* 517
——, local reactions after i.v. injections of, diazepam and isotonic saline, MIKKELSEN, H., *et al.* 817

Flunitrazepam, oral, comparison with triclofos and diazepam as premedicants in children undergoing otolaryngological surgery, LINDGREN, L., *et al.* 283
Fontan operation, early extubation after. A clinical report, SCHULLER, J. J., *et al.* 999
Food, effect of, and mild exercise, on individuals susceptible to malignant hyperpyrexia, CAMPBELL, I. T., *et al.*, (*ARS*) 236P
Forearm vascular effect, and central haemodynamic effect, of morphine in patients after open heart surgery, SAMUEL, I. O., *et al.* 1237
Four-choice reaction-time test, serial, assessment of postoperative performance decrement using a, SCOTT, A., *et al.*, (*ARS*) 629P
Functional organization, of the human eye, JAY, J. L. 649
Functional residual capacity, and ventilatory pressures during positive-pressure ventilation at high frequencies, JONZON, A., *et al.* 395

Gallamine, cardiac effects of, and atropine, in patients receiving suxamethonium, VIBY-MOGENSEN, J., *et al.* 1137
——, pretreatment with pancuronium and: thiopentone–nitrous oxide–halothane anaesthesia and suxamethonium, JØRGENSEN, B. C., *et al.* 1277
Gas exchange, clinical studies of, during ventilatory support—a method using the Siemens–Elema CO_2 Analyzer, OLSSON, S. G., *et al.* 491
——, respiratory, in ventilated patients, ABDUL-RASOOL, I. H., *et al.*, (*ARS*) 955P
Gas flowmeters, accuracy of, WAABEN, J., *et al.* 97
General anaesthesia, and spinal anaesthesia, in total hip replacement: frequency of deep vein thrombosis, THORBURN, J., *et al.* 1117
——, comparison of the effects of, and spinal anaesthesia on postoperative oxygenation and perioperative mortality, MCKENZIE, P. J., *et al.* 49
——, temperature monitoring during, CROCKER, B. D., *et al.* 1223
General Anaesthesia, Vols 1 and 2, GRAY, T. C., *et al.* (editors), (*R*) 1165
General anaesthetic agents, an invertebrate model for the study of, in the central nervous system, LOCK, P. T., *et al.*, (*ARS*) 952P
Gentamicin-induced, neuromuscular block, the nature of, TORDA, T. A. 325
German Landrace pigs, halothane-sensitive and -insensitive, effects of temperature, adenosine triphosphate and magnesium concentrations on the contraction of actinomyosin isolated from, GREEN, R. A., *et al.* 319
Glutaraldehyde, buffered, adverse effects of, on the Heidbrink expiratory valve, MOSTAFA, S. M. 223
Glycopyrrolate, comparative study of, with atropine on suxamethonium-induced changes in cardiac rate and rhythm, COZANITIS, D. A., *et al.* 291
——, evaluation of, and atropine as adjuncts to reversal of non-depolarizing neuromuscular blocking agents in a "true-to-life" situation, COZANITIS, D. A., *et al.* 85
——, investigation of, as a premedicant drug, SENGUPTA, A., *et al.* 513
Godart Capnograph Mark II, infrared carbon dioxide analyser, evaluation of, and the Datex CD-101, BLACKBURN, J. P., *et al.* 551
Greyhound, effect of metabolic acidosis and alkalosis on liver blood flow and oxygen consumption in the, HUGHES, R. H., *et al.*, (*EAA*) 104P
——, effects of enflurane and halothane on liver blood flow and oxygen consumption in the, HUGHES, R. L., *et al.* 1079
Guineapig, effects of non-depolarizing neuromuscular blocking agents on the cardiac vagus nerve in the, LEE SON, S., *et al.* 981
Gynaecological surgery, minor, comparison of these benzodiazepines for oral premedication in, MALE, C. G., *et al.* 429

Haemodynamic changes, time course of, during 24-hour Althesin–fentanyl anaesthesia in dogs, MICHALOT, G., *et al.* 19
Haemodynamic effects, comparison of metocurine and pancuronium in patients with coronary artery disease, HEINONEN, J., *et al.* 931
Haemodynamic study, of 36 patients: induction of anaesthesia with etomidate, CRIADO, A., *et al.* 803
Haemoglobin, human adult, oxygen-linked binding of halothane to, GUSSNON, P., *et al.* 1171
Haemopoiesis, enflurane has no effect on, in mice, BADEN, J. M., *et al.* 471
Halothane, a comparison with enflurane in outpatient paediatric dental anaesthesia, HOYAL, R. H. A., et al. 219
——, anaesthesia and Org NC 45, VIBY-MOGENSEN, J., *et al.* 67S
——, anaesthesia, isobutene formation during, in man, HEMPEL, V., *et al.* 989
——, anaesthesia, pulmonary arteriovenous shunts during, in dogs, PAVLIN, D. J., *et al.* 763
——, and enflurane, influence on respiratory airflow resistance and specific conductance in anaesthetized man, LEHANE, J. R., *et al.* 773
——, and enflurane, influence on the neuromuscular effects of Org NC 45 in man, FOLDES, F. F., *et al.* 64S
——, and enflurane, relationship of interval between administrations to enzyme changes following repeat, DUNDEE, J. W., *et al.*, (*ARS*) 630P
——, changes in the respiratory pattern induced by, in the cat, NISHINO, T., *et al.* 1191
——, effect of acute hypocapnia on renal function in the dog artificially ventilated with, nitrous oxide and oxygen, HUNTER, J. M. *et al.*, 197
——, effect of low concentrations of, on the oxygen electrode, MAEKAWA, T., *et al.* 585
——, effect on the performance of myocardium supplied by a narrowed artery, FRANCIS, C. M., *et al.*, (*ARS*) 236p
——, effect on the performance of the heart in the case of critical constriction of the left circumflex coronary artery, FRANCIS, C. M., *et al.*, (*ARS*) 631P
——, effects of, and hypocapnia on colon blood flow in the dog, AITKENHEAD, A. R., *et al.*, (*ARS*) 634P
——, effects of enflurane and, on liver blood flow and oxygen consumption in the greyhound, HUGHES, R. L., *et al.* 1079
——, enzymatic evidence of liver dysfunction following repeat administrations of, BLACK, G. W., *et al.*, (*ARS*) 235P
——, improves the balance of oxygen supply to demand in acute experimental myocardial ischaemia, SMITH, G., *et al.* 577
——, no effect on various parameters of human neutrophil function *in vitro*, NUNN, J. F., *et al.*, (*EAA*) 103P
——, oxygen-linked binding of, to human adult haemoglobin, GUESNON, P., *et al.* 1171
——, solubility and distribution of, in human blood, PANG, Y. C., *et al.* 851
——, time-course of formation of volatile reductive metabolites of, in humans and an animal model, GOURLAY, G. K., *et al.* 331

Halothane anaesthesia, can block insulin stimulation of pyruvate dehydrogenase activity in mammary glands of 24-hour starved lactating rats, HUTCHINSON, C. E., *et al.* 573
Halothane-sensitive, and -insensitive German Landrace pigs, effects of temperature, adenosine triphosphate and magnesium concentrations on the contraction of actinomyosin isolated from, GREEN, R. A., *et al.* 319
Handbook of British Anaesthesia 1979/80
Hand paralysis, and respiratory muscle paralysis produced by Org NC 45 in man, NORMAN, J., *et al.*, (*ARS*) 956P
Head injury treatments, a model-based comparison of two, BLACK, A. M. S., *et al.*, (*ARS*) 636P
Heart, effect of halothane on the perofrmance of the, in the case of critical constriction of the left circumflex coronary artery, FRANCIS, C. M., *et al.*, (*ARS*) 631P
Heart rate, effect of fentanyl on reflexly evoked changes in, mediated by the cardiomotorvagus, SCOTT, A., *et al.*, (*ARS*) 229P
——, effect of i.v. practolol during microlaryngoscopy on, and arterial pressure, blood glucose and lipolysis, WERNER, O., *et al.* 91
Heidbrink expiratory valve, adverse effects of buffered glutaraldehyde on, MOSTAFA, S. M. 223
Hepatic disease, plasma concentrations of fentanyl in patients with severe, and renal disease, and in normal surgical patients, CORALL, I. M., *et al.*, (*EAA*) 101P
Hepatic metabolism, of Althesin rate-limiting the duration of anaesthesia in the rat, evidence for, SEAR, J. W., *et al.*, (*ARS*) 231P
——, porcine malignant hyperthermia. VII, HALL, G. M., *et al.* 11
Hepatitis, acute, following enflurane anaesthesia, DANILEWITZ, M. D., *et al.* 1151
——, viral, PEUTHERER, J. F., *et al.*, (*C*) 964
Hepatotoxicity, of repeated inhalation anaesthetics, SEAR, J. W., (*C*) 839
High concentrations of oxygen, to damage cultured cells, protective effect of steroids on, STURROCK, J. E., *et al.* 567
Hip replacement, total, spinal and general anaesthesia: frequency of deep vein thrombosis, THORBURN, J., *et al.* 1117
Hip surgery, comparative effects of induced hypotension and normovolaemic haemodilution on blood loss in, BARBIER-BÖHM, G., *et al.*, (*EAA*) 103P
Human eye, functional organization of the, JAY, J. L. 649
Humidification, in anaesthesia, JEAL, D. E., (*C*) 466
Humidifier, heated water, temperature alarm and cut-out system for use with, WHITEHURST, P., *et al.* 557
Hypercalcaemia, chronic, secondary to hyperparathyroidism: a risk factor during anaesthesia?, GUNST, M. A., *et al.* 507
Hyperparathyroidism, chronic hypercalcaemia secondary to, a risk factor during anaesthesia?, GUNST, M. A., *et al.* 507
Hyperpyrexia, effect of food and mild exercise on individuals susceptible to malignant, CAMPBELL, I. T., *et al.*, (*ARS*) 236P
——, malignant, site of muscle cell abnormality in swine susceptible to, OKUMURA, F., *et al.* 377
——, malignant, smooth muscle contracture in, MITCHELL, H. W., *et al.*, (*C*) 637
Hypersensitivity, phenomenon, is depression of insulin during anaesthesia a?, CAMU, F., (*EAA*) 107P
Hyperthermia, malignant and minaxolone, HARRISON, G. G., *et al.*, (*C*) 706
——, malignant, dantrolene and the treatment of, HALL, G. M., (*E*) 847
——, malignant—pearls out of swine?, HALL, G. M., *et al.* 165
Hyperthermia, porcine malignant, 4-aminopyridine fails to induce, HALL, G. M., *et al.*, (*C*) 707
——, porcine malignant VII: Hepatic metabolism, HALL, G. M., *et al.* 11
Hypocapnia, effect of acute, on renal function in the dog artificially ventilated with nitrous oxide, oxygen and halothane, HUNTER, J. M., *et al.* 197
——, effects of, and halothane on colon blood flow in the dog, AITKENHEAD, A. R., *et al.*, (*ARS*) 634P
Hypotension, induced, comparative effect of, and normovolaemic haemodilution on blood loss in hip surgery, BARBIER-BÖHM, G., *et al.*, (*EAA*) 103P
——, induced, comparative effects of, and normovolaemic haemodilution on blood loss in total hip arthroplasty, BARBIER-BÖHM, G., *et al.* 1039
——, sodium nitroprusside-induced, in radical thoraco-abdominal dissection of retroperitoneal lymph nodes, STIRT, J. A., *et al.* 1045
Hypoxaemia, postoperative, efficiency of two variable performance techniques of oxygen therapy in relieving, JACOBSEN, J. B., *et al.* 925
——, role of circulating microaggregates in the development of, after operation, CAMPBELL, I. T., *et al.*, (*ARS*) 239P

ICI 35 868, a new anaesthetic: preliminary findings in 20 patients, ROGERS, K. M., *et al.*, (*ARS*) 230P
——, a new i.v. anaesthetic agent, the animal pharmacology of, GLEN, J. B., (*ARS*) 230P
——, animal studies of the anaesthetic activity of, GLEN, J. B. 731
——, pharmacokinetics in laboratory animals of, a new i.v. anaesthetic agent, ADAM, H. K., *et al.* 743
——, preliminary experience with, as an i.v. induction agent: comparison with Althesin, ROGERS, K. M., *et al.* 807
Illustrated Handbook in Local Anaesthesia, 2nd edn, ERIKSSON, E. (editor), (*R*) 560
I.m. administration, and oral administration of flunitrazepam in patients, comparison of the subjective effects and plasma concentrations, MCGOWAN, W. A. W., *et al.* 447
——, and oral administration of flunitrazepam in volunteers, comparison of the subjective effects and plasma concentrations, CLARKE, R. S. J., *et al.* 437
I.m. morphine, and extradural morphine, experimental comparison of, TORDA, T. A., *et al.* 939
Incremental, *v.* bolus administration of thiopentone, comparison of the cardiovascular effects of, SELTZER, J. L., *et al.* 527
Induction agent, for anaesthesia, i.v. midazolam as an, a study in volunteers, FORSTER, A., *et al.* 907
Induction of anaesthesia, with etomidate: haemodynamic study of 36 patients, CRIADO, A., *et al.* 803
Infection, and i.v. equipment design, GILSTON, A., (*C*) 242
Infusion, fentanyl by, a method of total dose reduction, COLE, A. G. M., *et al.*, (*ARS*) 229P
——, prolonged, of chlormethiazole in intensive care, SCOTT, D. B., *et al.* 541
Infusion model, for fentanyl based on pharmacokinetic analysis, HENGSTMANN, J. H., *et al.* 1021
Infusion of dopamine, oxygen transport during, CHAMBERLAIN, J. H., (*C*) 841
Inner tube, torsion of the, INGLIS, M. S., (*C*) 705
Insufflation, rapid, dynamic behaviour of the chest and of the abdomen in anaesthetized piglets, during, ARBORELIUS, M., *et al.* 5
Insulin secretion, is depression of, during anaesthesia a hypersensitivity phenomenon?, CAMU, F., (*EAA*) 107P

Insulin stimulation, of pyruvate dehydrogenase activity in mammary glands of 24-hour starved lactating rats can be blocked by halothane anaesthesia, HUTCHINSON, C. E., *et al.* 573
Intensive care, prolonged infusion of chlormethiazole in, SCOTT, D. B., *et al.* 541
Intercostal nerve block, posterior, for pain relief after cholecystectomy. *Anatomical basis and efficacy,* NUNN, J. F., *et al.* 253
Interoperative nefopam, (Acupan), effects of, DODSON, M. E., (*C*) 708
Intestinal peptide, vasoactive, in the perioperative period, ZIDEMAN, D. A., *et al.*, (*ARS*) 952P
Intraocular surgery, control of the eye during general anaesthesia for, HOLLOWAY, K. B. 671
Invertebrate model, for the study of general anaesthetic agents in the central nervous system, LOCK, P. T., *et al.*, (*ARS*) 952P
Ischaemia, acute experimental myocardial, halothane improves the balance of oxygen supply to demand in, SMITH, G., *et al.* 577
Isobutene formation, during halothane anaesthesia in man, HEMPEL, V., *et al.* 989
Isolated arm, failure of neostigmine to prevent tubocurarine neuromuscular block in the, FELDMAN, S. A., *et al.* 1199
"Isolated arm" preparation, use of the human, to indicate qualitative aspects of a new neuromuscular blocking agent, Org NC 45, BENCINI, A., *et al.* 43S
Isolated perfused rat heart, inhibition of neuronal uptake of noradrenaline by pancuronium and its homologues Org 6368, Org 7268 and NC 45 in the, SALT, P. J., *et al.* 313
Isotonic saline, local reactions after i.v. injections of, diazepam and flunitrazepam, MIKKELSEN, H., *et al.* 817
I.v. anaesthetic agents, some effects of, on the canine small intestine, HEALY, T. E. J., *et al.*, (*ARS*) 635P
I.v. bolus and infusion, combined, pharmacokinetics of tubocurarine administered by, RAMZAN, M. I., *et al.* 893
I.v. drugs, duration of action, and the intensity, NORMAN, J., (*E*) 1167
I.v. equipment, design and infection, GILSTON, A., (*C*) 242
I.v. induction agent, preliminary experience with ICI 35 868 as an: comparison with Althesin, ROGERS, K. M., *et al.* 807
I.v. midazolam, as an induction agent for anaesthesia: a study in volunteers, FORSTER, A., *et al.* 907
I.v. regional anaesthesia, effect of sodium bicarbonate on the kinetics of bupivacaine in, in dogs, DONCHIN, Y., *et al.* 969
——, motor nerve conduction in, with bupivacaine hydrochloride, MAGORA, F., *et al.* 1123
——, prolonged effect of bupivacaine hydrochloride after cuff release in, MAGORA, F., *et al.* 1131
I.v. regional suxamethonium test, muscular paralysis following, SCHREIBER, W., *et al.*, (*C*) 842

Johannesburg A–D circuit switch, HUMPHREY, D., *et al.*, (*C*) 842

Ketamine, anaesthesia, effect of biliary excretion on, in the rat, IRELAND, S. J., *et al.* 23
——, are there long-term effects on the central nervous system?, SCHORN, T. O. F., *et al.*, (*E*) 967
——, effect on transmission in sympathetic ganglia, MAHMOODI, V., *et al.* 371
——, mechanism of action of, LUNDY, P. M., (*C*) 638
Ketamine, requirement in children, WILLATTS, S. M., (*C*) 840
Ketamine–diazepam anaesthesia, antagonism of, by 4-aminopyridine in human volunteers, AGOSTON, S., *et al.* 367
Key Words in Anesthesiology, 2nd edn, GREENE, N. M., (*R*) 846
Kinetics of bupivacaine, effect of sodium bicarbonate on, in i.v. regional anaesthesia in dogs, DONCHIN, Y., *et al.* 969

Lactate in Acute Conditions. International Symposium on Lactate in Acute Conditions, Basel, 1978, BOSSART, H., *et al.*, (editors), (*R*) 639
Laparoscopy, regurgitation during, DUFFY, B. L., (*C*) 960
——, regurgitation during, SCOTT, D. B., (*C*) 559
Laryngoscopy, anaesthesia for, VIVORI, E., (*C*) 638
Laser, anaesthetic management of tracheal surgery using the neodymium–yttrium–aluminium–garnet, VOURC'H, G., *et al.* 993
——, i.v., in reflex and allergic bronchoconstriction, DOWNES, H., *et al.* 873
——, neodynium–yttrium–aluminium–garnet, anaesthetic management of tracheal surgery using, VOURC'H, G., *et al.*, (*EAA*) 105P
——, response of MHS swine to i.v. infusion of, and bupivacaine, HARRISON, G. G., *et al.* 385
Lipolysis, effect of i.v. practolol during microlaryngoscopy on, and arterial pressure, heart rate and blood glucose, WERNER, O., *et al.* 91
Liver, drug reactions and the, NIMMO, W. S., (*E*) 1059
Liver blood flow, effect of metabolic acidosis and alkalosis on, and oxygen consumption in the greyhound, HUGHES, R. L., *et al.*, (*EAA*) 104P
——, effects of enflurane and halothane on, and oxygen consumption in the greyhound, HUGHES, R. L., *et al.* 1079
Liver disease, fazadinium pharmacokinetics in patients with, DUVALDESTIN, P., *et al.* 789
Liver dysfunction, enzymatic evidence of, following repeat administrations of halothane, BLACK, G. W., *et al.*, (*ARS*) 235P
Local anaesthesia, and the eye, ALLEN, E. D., et al. 689
Local anaesthetic drugs, effects of concentration of, in extradural block, SCOTT, D. B., *et al.* 1033
Local Analgesia, JOLLY, C., (*R*) 639
Local complications, of thiopentone, HARRIS, P. A., (*C*) 840
Local reactions, after i.v. injections of diazepam, flunitrazepam and isotonic saline, MIKKELSEN, H., *et al.* 817
——, to i.v. diazepam in three different formulations, SCHOU OLESEN, A., *et al.* 609
Long-term effects, of ketamine on the central nervous system, are there?, SCHORN, T. O. F., *et al.*, (*E*) 967
Lorazepam, and morphine for i.v. surgical premedication, L'ARMAND, J., *et al.* 1259
Low-output syndrome, combined therapy of, with vasodilatation and positive inotropic stimulation in patients after open-heart surgery, VAN ACKERN, K., *et al.*, (*EAA*) 104P
Lumbar extradural analgesia, experiences with, for Caesarean section, CRAWFORD, J. S. 821
Lumbar extradural injection pressures, in pregnant women. *An investigation of relationships between rate of injection, injection pressures and extent of analgesia,* HUSEMEYER, R. P., *et al.* 55
Lung expansion, minimum artificial, necessary for resuscitation of the new born lamb, VAUGHAN, R. S., *et al.* 189

Lung Function, Assessment and Application in Medicine, 4th edn, COTES, J. E., (*R*) 1057
Lung ventilation, asynchronous independent, (AILV) HILLMAN, K. M., *et al.*, (*ARS*) 233P
Lymph nodes, sodium nitroprusside-induced hypotension in radical thoraco-abdominal dissection of retroperitoneal, STIRT, J. A., *et al.* 1045
Lymphocyte, responses *in vitro*, to mitogens in patients undergoing a minimally invasive procedure under general anaesthesia, THOMPSON, S., *et al.*, (*ARS*) 234P
Lymphocyte blastogenic response, effect of single oral dose of phenobarbitone on, in man, PUPPO, F., *et al.* 1205
Lysine acetylsalicylate, i.m. Comparison with oxycodone in the treatment of pain after operation, KORTTILA, K., *et al.* 613

Magnesium concentrations, effects of and temperature and adenosine triphosphate on the contraction of actomyosin isolated from halothane-sensitive and -insensitive German Landrace pigs, GREEN, R. A., *et al.* 319
Malignant hyperpyrexia, effect of food and mild exercise on individuals susceptible to, CAMPBELL, I. T., *et al.*, (*ARS*) 236P
——, site of the muscle cell abnormality in swine susceptible to, OKUMURA, F., *et al.* 377
Malignant hyperthermia, and minaxolone, HARRISON, G. G., *et al.*, (*C*) 706
——, dantrolene and the treatment of, HALL, G. M., (*E*) 847
——, porcine, 4-aminopyridine fails to induce, HALL, G. M., *et al.*, (*C*) 707
Malignant Hyperthermia. International Anesthesiology Clinics, Vol. 17, No. 4., BRITT, B. A. (editor), (*R*) 846
Mammary glands, of 24-hour starved lactating rats, halothane anaesthesia can block insulin stimulation of pyruvate dehydrogenase activity in, HUTCHINSON, C. E., *et al.* 573
Man, plasma concentration and metabolism of phenoperidine in, MILNE, L., *et al.* 537
Mass spectrometer, measurement of oxygen uptake and carbon dioxide exchange during cardiopulmonary bypass, ABBOTT, T. R., *et al.* 29
Mass spectrometers, in anaesthesia, GRAHAM, J. M., *et al.*, (*C*) 1055
Mass spectrometry, blood-gas tension measurement in anaesthesia by bubble equilibration and, MAPLESON, W. W., *et al.* 1061
Maternal mortality, and anaesthesia, GIBBS, C. P., *et al.*, (*C*) 842
——, and anaesthesia, MOIR, D. D., (*E*) 1
Measurement in ophthalmology, aspects of, LEMAY, M. 655
Mechanisms of Pain and Analgesic Compounds. (Miles International Symposium Series, No. 11), BEERS, R. F. jr, *et al.* (editors), (*R*) 965
Medical Management of the Critically Ill, HANSON, G., *et al.* (editors), (*R*) 468
Medical Problems and the Anaesthetist, KAUFMAN, L., *et al.*, (*R*) 560
Memory, effect of oral benzodiazepines on, MCKAY, A. C., *et al.* 1247
Mendelson's Syndrome, an unusual case of, VAUGHAN, R. S., *et al.* 459
Meptazinol, comparison in a double-blind trial with pethidine in postoperative pain, HEDGES, A., *et al.* 295
Metabolic acidosis, effect of, and alkalosis on liver blood flow and oxygen consumption in the greyhound, HUGHES, R. L., *et al.*, (*EAA*) 104P
Metabolic alkalosis, effect of, and acidosis on liver blood flow and oxygen consumption in the greyhound, HUGHES, R. L., *et al.*, (*EAA*) 104P
Metabolic response, to surgery, and beta-adrenergic blockade, COOPER, G. M., *et al.* 1231
——, to surgery fentanyl, HALL, G. M., (*E*) 561
Metabolism, of phenoperidine, and plasma concentration in man, MILNE, L., *et al.* 537
Metallized plastic sheeting, CUNDY, J. M., (*C*) 359
MHS swine, response of, to i.v. infusion of lignocaine and bupivacaine, HARRISON, G. G., *et al.* 385
Mice, enflurane has no effect on haemopoiesis in, BADEN, J. M., *et al.* 471
Microaggregates, the role of circulating, in the development of hypoxaemia after operation, CAMPBELL, I. T., *et al.*, (*ARS*) 239P
Microlaryngoscopy, i.v. practolol during. Effect on arterial pressure, heart rate, blood glucose and lipolysis, WERNER, O., *et al.* 91
Metocurine, comparison of haemodynamic effects of, and pancuronium in patients with coronary artery disease, HEINONEN, J., *et al.* 931
Midazolam,—an alternative to thiopentone?, GAMBLE, J. A. S., *et al.*, (*ARS*) 951P
——, i.v., as an induction agent for anaesthesia: a study in volunteers, FORSTER, A., *et al.* 907
——, (RO 21-3981), cardiovascular effects of, in the dog, WHITWAM, J. G., *et al.*, (*ARS*) 954P
Minaxolone, and malignant hyperthermia, HARRISON, G. G., *et al.*, (*C*) 706
——, pharmacokinetics of, MATHER, L. E., *et al.*, (*C*) 241
Mitogens, *in vitro* lymphocyte changes to, in patients undergoing a minimally invasive procedure under general anaesthesia, THOMPSON, S., *et al.*, (*ARS*) 234P
Mitral valve disease, effects of enflurane on cardiovascular function in dogs with induced chronic, COCKINGS, E., *et al.* 1087
Model-based comparison, of two head injury treatments, BLACK, A. M. S., *et al.*, (*ARS*) 636P
Monitoring Cerebral Function: Long-term Recording of Cerebral Electrical Activity, PRIOR, P., (*R*) 640
Monitoring Patients in the Operating Room, GRAVENSTEIN, J. S., *et al.* (editors), (*R*) 244
Monitoring techniques, personal pollution, comparison of, in the operating theatre, CAMPBELL, D., *et al.* 885
Morphine, and lorazepam for i.v. surgical premedication, L'ARMAND, J., *et al.* 1259
——, central haemodynamic and forearm vascular effect of, in patients after open heart surgery, SAMUEL, I. O., *et al.* 1237
——, experimental comparison of extradural and i.m., TORDA, T. A., *et al.* 939
——, extradural analgesia, observations in various pain conditions, MAGORA, F., *et al.* 247
——, extradural, respiratory depression after, CHRISTENSEN, V., (*C*) 841
Morphine-induced, respiratory depression, physostigmine antagonizes, but not analgesia in dogs and rabbits, WEINSTOCK, M., *et al.* 1171
Motilin, concentrations, anaesthesia, surgery and: a preliminary report, RUTTER, D. V., *et al.*, (*ARS*) 953P
Motor nerve conduction, in intravenous regional anaesthesia with bupivacaine hydrochloride, MAGORA, F., *et al.* 1123
Muscle, ELLIS, F. R., *et al.*, (*E*) 109
——, biochemistry, ILLINGWORTH, J. A. 123
——, guineapig tracheal smooth, effects of anaesthetics on, OKUMURA, F., *et al.* 199
——, striated, the physiology of, FLOYD, K. 111
Muscle cell abnormality, site of the, in swine susceptible to malignant hyperpyrexia, OKUMURA, F., *et al.* 377

Muscle disease, inherited, ELLIS, F. R. 153
Muscle pains, postoperative, and suxamethonium, BRODSKY, J. B., *et al.* 215
Muscle Relaxants, 2nd edn, FELDMAN, S. A., (*R*) 640
Muscular dystrophy, Duchenne, anaesthesia-induced rhabdomyolysis in, BOLTSHAUSER, E., *et al.*, (*C*) 559
Muscular paralysis, following i.v. regional suxamethonium test, SCHREIBER, W., *et al.*, (*C*) 842
Myocardial function, and critical constriction of the left anterior descending coronary artery: effects of enflurane, CUTFIELD, G. R., *et al.*, (*ARS*) 953P
Myocardial ischaemia, halothane improves the balance of oxygen supply to demand in acute experimental, SMITH, G., *et al.* 577
Myocardium, effect of halothane on the performance of, supplied by a narrowed artery, FRANCIS, C. M., *et al.*, (*ARS*) 236P
Myoneural blocking drugs, differential effects of, on neuromuscular transmission, WILLIAMS, N. E., *et al.* 1111
Myotest, a new nerve stimulator, VIBY-MOGENSEN, J., *et al.* 547

Naloxone, analgesic effect of aprotinin in the rat, its inhibition by, NOVELLI, G. P., *et al.* 1107
Narcotic analgesic, human volunteer studies of R 39209, a new short-acting, KAY, B., *et al.*, (*ARS*) 631P
Narcotic drugs, and anaesthetic drugs, action on contractility of human bronchial muscles, ROTHHAMMER, A., *et al.*, (*EAA*) 106P
Narrowed artery, supplying myocardium, effect of halothane on the performance of myocardium, FRANCIS, C. M., *et al.*, (*ARS*) 236P
Nefopam, (Acupan), interoperative, effects of, DODSON, M. E., (*C*) 708
Neodymium–yttrium–aluminium–garnet laser, anaesthetic management of tracheal surgery using the, VOURC'H, G., *et al.* 993
Neonatal effects, and placental transfer of diazepam when administered to women just before delivery, MCALLISTER, C. B. 423
Neonatal thyroid function, and anaesthesia, HALEVY, S., *et al.* 975
Neonates, undergoing surgery, ventilatory management of. *A review of the first 3 years' experience in a neonatal surgical intensive care unit,* MACKERSIE, A. M., *et al.* 273
Neostigmine, and 4-aminopyridine, do they inhibit the antibacterial activity of antibiotics?, BOOIJ, L. H. D. J., *et al.* 1097
——, failure to prevent tubocurarine neuromuscular block in the isolated arm, FELDMAN, S. A., *et al.* 1199
——, neuromuscular blockade by, GEBERT, E., (*C*) 1056
——, neuromuscular blockade by, in anaesthetized man, PAYNE, J. P., *et al.* 69
Nerve block, differential, by bupivacaine and 2-chloroprocaine, ROSENBERG, P. H., *et al.* 1183
——, posterior intercostal, BALLANTINE, R. I. W., (*C*) 843
Nerve–muscle preparation, effect of tobramycin on mammalian, CORRIGAN, J. P., *et al.*, (*ARS*) 237P
Nerve stimulator, new, (Myotest), VIBY-MOGENSEN, J., *et al.* 547
——, supraclavicular brachial plexus block using a, and an insulated needle, YASUDO, I., *et al.* 409
Neuromuscular block, by tubocurarine, failure of neostigmine to prevent, in the isolated arm, FELDMAN, S. A., *et al.* 1199
——, the nature of gentamicin-induced, TORDA, T. A. 325
Neuromuscular blockade, behaviour of, produced by suxamethonium or dioxonium, TAMMISTO, T., *et al.*, (*EAA*) 102P
Neuromuscular blockade, by neostigmine, GEBERT, E., (*C*) 1056
——, by neostigmine in anaesthetized man, PAYNE, J. P., *et al.* 69
——, control of, by external feedback mechanisms, ASHBURY, A. J., *et al.*, (*ARS*) 633P
——, recovery from by atracurium, HUGHES, R., *et al.*, (*ARS*) 634P
Neuromuscular blocking action, of Org NC 45, a new pancuronium derivative, in anaesthetized patients. *A pilot study,* AGOSTON, S., *et al.* 53S
Neuromuscular blocking agent, a new, Org NC 45. *A pilot study in man,* BAIRD, W. L. M., *et al.* 61S
——, a new, Org NC 45, use of the human "isolated arm" preparation to indicate qualitative aspects of, BENCINI, A., *et al.* 43S
——, interaction of calcium and potassium with, WAUD, B. E., *et al.* 863
——, new, atracurium, experimental studies with, HUGHES, R., *et al.*, (*ARS*) 238P
——, non-depolarizing, effects on the cardiac vagus nerve in the guineapig, LEE SON, S., *et al.* 981
——, non-depolarizing, pharmacology of Org NC 45 compared with other, MARSHALL, I. G., *et al.* 11S
Neuromuscular blocking drugs, artery-to-muscle onset time for, MINSAAS, B., *et al.* 403
——, effect of experimental cholestasis on, in cats, WESTRA, P., *et al.* 747
Neuromuscular blocking properties, comparison of Org NC 45 and pancuronium in the rat, cat and rhesus monkey, DURANT, N. N., *et al.* 723
Neuromuscular effects, of Org NC 45 in man, influence of halothane and enflurane on the, FOLDES, F. F., *et al.* 64S
Neuromuscular function, and diazepam, BRADSHAW, E. G., *et al.*, (*C*) 960
——, and diazepam, CARNIE, J., (*C*) 960
Neuromuscular pharmacology, BUSH, G. H., *et al.*, (*C*) 962
——, LEE, C., *et al.*, (*C*) 963
——, *a clinical update and commentary,* LEE, C., *et al.* 173
Neuromuscular transmission, differential effects of nyoneural blocking drugs on, WILLIAMS, N. E., *et al.* 1111
——, maturation of, in the infant, GOUDSOUZIAN, N. G. 205
Neutrophil function, *in vitro,* human, no effect of halothane on various parameters of, NUNN, J. F., *et al.*, (*EAA*) 102P
New anaesthetic formulation, for epicutaneous application tested for cutting split skin grafts, OHLSÉN, L., *et al.* 413
Newborn, ventilatory depression of the, of women receiving pethidine or pentazocine. *A double blind comparative trial,* REFSTAD, S. O., *et al.* 265
New i.v. anaesthetic agent, ICI 35 868, pharmacokinetics in laboratory animals, ADAM, H. K., *et al.* 743
Nitrazepam, comparative study of the clinical effects of, tofizopam and placebo as oral premedicants, PAKKENEN, A., *et al.* 1009
Nitrogen, apparent differences between pulmonary volumes of distribution of oxygen and, measured by re-breathing a measure of faulty extrapolation, BLACK, A. M. S., *et al.*, (*ARS*) 954P
Nitrous oxide, anaesthesia, tympanic membrane rupture during, SRIVASTAVA, S., (*C*) 961
——, blood concentrations of, in theatre personnel, KRAPEZ, J. R., *et al.* 1143
——, effect of acute hypocapnia on renal function in the dog artificially ventilated with, oxygen and halothane, HUNTER, J. M., *et al.* 197

Non-depolarizing muscle relaxant, a new, Org NC 45, in clinical anaesthesia. *Preliminary results,* BUZELLO, W., *et al.* 62S
Non-depolarizing neuromuscular blocking agents, comparison of the cardiovascular actions of Org NC 45 with those produced by, in experimental animals, MARSHALL, R. J., *et al.* 21S
——, effects on the cardiac vagus nerve in the guineapig, LEE SON, S., *et al.* 981
——, evaluation of glycopyrrolate and atropine as adjuncts to reversal of, in a "true-to-life" situation, COZANITIS, D. A., *et al.* 85
——, pharmacology of Org NC 45 compared with other, MARSHALL, I. G., *et al.* 11S
Noradrenaline, inhibition of neuronal uptake of, in the isolated perfused rat heart by pancuronium and its homologues, Org 6368, Org 7268 and NC 45, SALT, P. J., *et al.* 313
——, plasma concentrations of, and adrenaline and plasma renin activity during extradural blockade in dogs, STANEK, B., *et al.* 305
Normovolaemic haemodilution, comparative effects of, and induced hypotension on blood loss in total hip arthroplasty, BARBIER-BÖHM, G., *et al.* 1039
——, comparative effects of induced hypotension and, on blood loss in hip surgery, BARBIER-BÖHM, G., *et al.*, (*EAA*) 103P

Obesity, gross, Caesarean section associated with, HODGKINSON, R., *et al.* 919
Obstetric anaesthesia, and Ehlers–Danlos syndrome, ABOULEISH, E. 1283
——, a previous history of acute intermittent porphyria as a complication of, ALLEN, S. C., *et al.* 835
Obstetrics, CO_2-bupivacaine for continuous extradural anaesthesia in, DICK, W., *et al.*, (*EAA*) 102P
Obstructive sleep apnoea, patient, perioperative considerations in the management of tracheotomy for the. *Three illustrative case reports,* RAFFERTY, T. D., *et al.* 619
Occlusion, of dorsal pedis artery, HURTER, D., (*C*) 705
Occlusion pressure wave, tracheal intubation changes the shape of the, SCOTT, D. H. T., *et al.*, (*ARS*) 232P
Oestrus rat uterus, preliminary *in vitro* study of diazepam and droperidol on, KHAN, A. A. 349
Open heart surgery, central haemodynamic and forearm vascular effect of morphine in patients after, SAMUEL, I. O., *et al.* 1237
——, combined therapy of low-output syndrome with vasodilatation and positive inotropic stimulation in patients after, VAN ACKERN, K., *et al.*, (*EAA*) 104P
Ophthalmology, aspects of measurement in, LEMAY, M. 655
Opiate analgesic, R 39209, respiratory effects in the rabbit: comparison with fentanyl, BROWN, J. H., *et al.* 1101
Optimum fresh gas, and ventilatory requirements during controlled ventilation with T-piece systems, CONWAY, C. M., (*EAA*) 106P
Oral administration, and i.m. administration of flunitrazepam in patients, comparison of the subjective effects and plasma concentrations, MCGOWAN, W. A. W., *et al.* 447
——, and i.m. administration of flunitrazepam in volunteers comparison of the subjective effects and plasma concentrations, CLARKE, R. S. J., *et al.* 437
Oral benzodiazepines, effect on memory, MCKAY, A. C., *et al.* 1247
Oral dose, single, of phenobarbitone, effect on lymphocyte blastogenic response in man, PUPPO, F., *et al.* 1205
Oral premedicants, comparative study of the clinical effects of tofizopam, nitrazepam and placebo as oral premedicants, PAKKANEN, A., *et al.* 1009
Oral premedication, camparison of three benzodiazepines for, in minor gynaecological surgery, MALE, C. G., *et al.* 429
Oral temazepam, in volunteers, respiratory and psychological effects of, PLEUVRY, B. J., *et al.* 901
Organ donor, time of death of an, ELLIS, F. R., (*E*) 1169
Org NC 45, comparison of the cardiovascular actions of, with those produced by other non-depolarizing neuromuscular blocking agents in experimental animals, MARSHALL, R. J., *et al.* 21S
——, comparison of the neuromuscular blocking properties of, and pancuronium in the rat, cat and rhesus monkey, DURANT, N. N., *et al.* 723
——, emergence of, 1-[(2β,3α,5α,16β,17β)-3,17-bis(acetyloxy)-2-(1-piperidinyl)-androstan-16-yl]-1-methylpiperidinium bromide, from the pancuronium series, SAVAGE, D. S., *et al.* 3S
——, first clinical experiences with, CRUL, J. F., *et al.* 49S
——, hand and respiratory muscle paralysis produced by, in man, NORMAN, J., *et al.*, (*ARS*) 956P
——, influence of halothane and enflurane on the neuromuscular effects of, in man, FOLDES, F. F., *et al.* 64S
——, initial experiences, SWEN, J. 66S
——, new neuromuscular blocking drug. *A pilot study in man,* BAIRD, W. L. M., *et al.* 61S
——, new non-depolarizing muscle relaxant, in clinical anaesthesia. *Preliminary results,* BUZELLO, W., *et al.* 62S
——, new pancuronium derivative, the neuromuscular blocking action of, in anaesthetized patients. A pilot study, AGOSTON, S., *et al.* 53S
——, on, and halothane anaesthesia, VIBY-MOGENSEN, J., *et al.* 67S
——, pharmacokinetics and pharmacodynamics of, in man, VAN DER VEEN, F., *et al.* 37S
——, preliminary clinical observations with, SCHAER, H., *et al.* 65S
——, preliminary review of the interactions of, with anaesthetics and antibiotics in animals, KRIEG, N., *et al.* 33S
——, the pharmaceutical formulation of, Addendum, BURGER, H., *et al.* 7S
——, relative potency of, and pancuronium, alcuronium and tubocurarine in anaesthetized man, KRIEG, N., *et al.* 783
Outpatient Anaesthesia, BROWN, B. R. (editor), (*R*) 243
Oxycodone, comparison with i.m. lysine acetylsalicylate in the treatment of pain after operation, KORTTILA, K., *et al.* 613
Oxygen, apparent differences between pulmonary volumes of distribution of, and nitrogen measured by re-breathing: a measure of faulty extrapolation, BLACK, A. M. S., *et al.*, (*ARS*) 954P
——, effect of acute hypocapnia on renal function in the dog artificially ventilated with, nitrous oxide and halothane, HUNTER, J. M., *et al.* 197
Oxygen consumption, effect of metabolic acidosis and alkalosis on liver blood flow and, in the greyhound, HUGHES, R. L., *et al.*, (*EAA*) 104P
——, effects of enflurane and halothane on liver blood flow and, in the greyhound, HUGHES, R. L., *et al.* 1079
Oxygen electrode, effect of low concentrations of halothane on the, MAEKAWA, T., *et al.* 585
Oxygen fail-safe device, for an oxygen failure in anaesthetic apparatus, FLOWER, K. A., *et al.* 1161
Oxygen-linked binding, of halothane to human adult haemoglobin, GUESNON, P., *et al.* 1171

Oxygen therapy, efficiency of two variable performance techniques of, in relieving postoperative hypoxaemia, JACOBSEN, J. B., *et al.* 925
Oxygen transport, during dopamine infusion, CHAMBERLAIN, J. H., (*C*) 841
——, during dopamine infusion, SCOTT, A., *et al.*, (*C*) 962
Oxygen uptake, mass spectrometer measurement of, and carbon dioxide exchange during cardiopulmonary bypass, ABBOTT, T. R., *et al.* 29

Pain. Association for Research in Nervous and mental Disease Volume 58, BONICA, J. J. (editor), (*R*) 709
Pain, relieving acute, SPENCE, A. A., (*E*) 245
Pain after operation, comparison of i.m. lysine acetylsalicylate and oxycodone in the treatment of, KORTTILA, K., *et al.* 613
Pain conditions, various, observations on extradural morphine analgesia in, MAGORA, F., *et al.* 247
Pain relief, in dental surgery, SANDO, M. J. W., (*C*) 959
——, posterior intercostal nerve block for, after cholecystectomy. *Anatomical basis and efficacy,* NUNN, J. F., *et al.* 253
Pancuronium, comparison of haemodynamic effects of metocurine and, in patients with coronary artery disease, HEINONEN, J., *et al.* 931
——, comparison of the neuromuscular blocking properties of Org NC 45, in the rat, cat and rhesus monkey, DURANT, *et al.* 723
——, constrictive effect on capacitance vessels, LEE, C., *et al.* 261
——, in Caesarean section and its placental transfer, ABOULEISH, E., *et al.* 531
——, inhibition of neuronal uptake of noradrenaline in the isolated perfused rat heart by, and its homologues, Org 6368, Org 7268 and NC 45, SALT, P. J., *et al.* 313
——, plasma clearance and age, SOMOGYI, A., (*C*) 360
——, relative potency of, and Org NC 45, alcuronium and tubocurarine in anaesthetized man, KRIEG, N., *et al.* 783
——, series, the emergence of Org NC 45, 1-[2β,3α,5α,16β,17β)-3, 17-bis(acetyloxy)-2-(1-piperidinyl)-androstan-16-yl]-1-methyl piperidinium bromide, from the, SAVAGE, D. S., *et al.* 3S
Paralysis, hand and respiratory muscle, produced by Org NC 45 in man, NORMAN, J., *et al.*, (*ARS*) 956P
Pathophysiological aspects, of the aspiration syndrome, the early stages, DRAXLER, V., *et al.*, (*EAA*) 106P
Pco_2, arterial, effects of, and subarachnoid spinal nerve block, on colon blood flow in the dog, AITKENHEAD, A. R., *et al.* 1071
Pediatric Anesthesia Handbook, LEVIN, R. M., (*R*) 845
Pentazocine, ventilatory depression of the newborn of women receiving pethidine or. *A double blind comparative trial,* REFSTAD, S. O., *et al.* 265
Peptide, vasoactive intestinal, in the perioperative period, ZIDEMAN, D. A., *et al.*, (*ARS*) 952P
Perioperative mortality, and postoperative oxygenation, comparison of the effects of spinal anaesthesia and general anaesthesia on, MCKENZIE, P. J., *et al.* 49
Perioperative period, vasoactive intestinal peptide, in the, ZIDEMAN, D. A., *et al.*, (*ARS*) 952P
Personal pollution monitoring techniques, comparison of, for use in the operating theatre, CAMPBELL, D., *et al.* 885
Pethidine, comparison in a double-blind trial with meptazinol in postoperative pain, HEDGES, A., *et al.* 295
——, extradural, BAPAT, A. R., *et al.*, (*C*) 637
——, ventilatory depression of the newborn of women receiving, or pentazocine. *A double blind comparative trial,* REFSTAD, S. O., *et al.* 265
Pethidine, (meperidine), neonatal pharmacokinetics of, administered to mothers during labour, BARRIER, G., *et al.*, (*EAA*) 101P
Pharmaceutical formulation, of Org NC 45, Addendum, BURGER, H., *et al.* 7S
Pharmacodynamic model, for fazadinium, HULL, C. J., *et al.*, (*ARS*) 632P
Pharmacodynamics, and pharmacokinetics of Org NC 45 in man, VEEN, VAN DER F., *et al.* 37S
Pharmacokinetic analysis, infusion model for fentanyl based on, HENGSTMANN, J. H., *et al.* 1021
Pharmacokinetics, and pharmacodynamics of Org NC 45 in man, VEEN, VAN DER F., *et al.* 37S
——, in laboratory animals of ICI 35 868, a new i.v. anaesthetic agent, ADAM, H. K., *et al.* 743
——, neonatal, of pethidine (meperidine) administered to mothers during labour, BARRIER, G., *et al.*, (*EAA*) 101P
——, of fazadinium in patients with liver disease, DUVALDESTIN, P., *et al.* 789
——, of high-dose fentanyl. *A study in patients undergoing cardiac surgery,* BOVILL, J. G., *et al.* 795
——, of minaxolone, MATHER, L. E., *et al.*, (*C*) 241
——, of thiopentone in a group of young women and a group of young men, CHRISTENSEN, J. H., *et al.* 913
——, of tubocurarine administered by combined i.v. bolus and infusion, RAMZAN, M. I., *et al.* 893
Pharmacology, of Org NC 45 compared with other non-depolarizing neuromuscular blocking drugs, MARSHALL, I. G., *et al.* 11S
Phenobarbitone, effect of single oral dose on lymphocyte blastogenic response in man, PUPPO, F., *et al.* 1205
Phenoperidine, plasma concentration and metabolism, in man, MILNE, L., *et al.* 537
Physostigmine, antagonizes morphine-induced respiratory depression but not analgesia in dogs and rabbits, WEINSTOCK, M., *et al.* 1171
Placental transfer, and neonatal effects of diazepam when administered to women just before delivery, MCALLISTER, C. B. 423
——, of pancuronium in Caesarean section, ABOULEISH, E., *et al.* 531
Plasma albumin, associated with extracorporeal circulation, and changes in colloid osmotic pressure, SANCHEZ DE LEON, R., *et al.*, (*ARS*) 630P
Plasma atropine, concentrations, determined by radioimmunoassay after single-dose i.v. and i.m. administration, BERGHEM, L., *et al.* 597
Plasma concentration, and metabolism of phenoperidine in man, MILNE, L., *et al.* 537
Plasma concentrations, analgesic, COOKSON, R. F., (*C*) 959
——, comparison of and subjective effects following oral and i.m. administration of flunitrazepam in patients, MCGOWAN, W. A. W., *et al.* 487
——, comparison of, and subjective effects following oral and i.m. administration of flunitrazepam in volunteers, CLARKE, R. S. J., *et al.* 437
——, of fentanyl in normal surgical patients and those with severe renal and hepatic disease, CORALL, I. M., *et al.*, (*EAA*) 101P
Plasma cortisol, concentrations during Caesarean section, NAMBA, Y., *et al.* 1027
Plasma exchange, prolongation of suxamethonium following, LUMLEY, J. 1149
Plasma fentanyl concentrations, during and after anaesthesia, ventilatory depression related to, GILL, K. J., *et al.*, (*ARS*) 632P
Plasma renin activity, and plasma concentrations of noradrenaline and adrenaline during extradural blockade in dogs, STANEK, B., *et al.* 305

Plasma viscosity, and cremophor-dissolved anaesthetics, GRAMSTAD, L., *et al.*, (*EAA*) 108P
Pneumonia, aspiration, inefficiency of antacid in prevention of, TOUNG, T., *et al.*, (*C*) 241
P_{N_2O} analysis, on-line, and P_{O_2} analysis with an *in vivo* catheter electrode, BROOKS, W. N., *et al.* 715
P_{O_2} analysis, on-line, and P_{N_2O} analysis, with an *in vivo* catheter electrode, BROOKS, W. N., *et al.* 715
Porcine, malignant hyperthermia. VII: Hepatic metabolism, HALL, G. M., *et al.* 11
——, 4-aminopyridine fails to induce, HALL, G. M., *et al.*, (*C*) 707
Porphyria, acute intermittent, a previous history of, as a complication of obstetric anaesthesia, ALLEN, S. C., *et al.* 835
Porphyrias, general anaesthesia in "inducible", MUSTAJOKI, P., *et al.*, (*EAA*) 107P
Porphyric phases, acute, screening of certain anaesthetic agents for their ability to elicit, in susceptible patients, BLEKKENHORST, G. H., *et al.* 759
Positive inotropic stimulation, combined therapy of, with low-output syndrome and vasodilatation in patients after open-heart surgery, VAN ACKERN, K., *et al.*, (*EAA*) 104P
Positive-pressure ventilation, at high frequencies, functional residual capacity and ventilatory pressures during, JONZON, A., *et al.* 395
Posterior intercostal nerve block, BALLANTINE, R. I. W., (*C*) 843
Postoperative hypoxaemia, efficiency of two variable performance techniques of oxygen therapy in relieving, JACOBSEN, J. B., *et al.* 925
Postoperative muscle pains, and suxamethonium, BRODSKY, J. B., *et al.* 215
Postoperative oxygenation, and perioperative mortality, comparison of the effects of spiral anaesthesia and general anaesthesia on, MCKENZIE, P. J., *et al.* 49
Postoperative pain, a double-blind comparison of meptazinol with pethidine in, HEDGES, A., *et al.* 295
Postoperative performance, decrement, assessment of, using a serial four-choice reaction-time test, SCOTT, A., *et al.*, (*ARS*) 629P
Postoperative pulmonary complications, effect of doxapram on, following thoracotomy, SEBEL, P. S., *et al.* 81
Potassium, interaction of, and calcium, with neuromuscular blocking agents, WAUD, B. E., *et al.* 863
Practical Anesthetic Pharmacology, ATTIA, R. R., *et al.* (editors), (*R*) 244
Practical Dental Anaesthesia, KILPATRICK, A., (*R*) 468
Practolol, i.v., during microlaryngoscopy. Effect on arterial pressure, heart rate, blood glucose and lipolysis, WERNER, O., *et al.* 91
Pregnancy, anaesthesia for termination of, GRANT, I. S., (*E*) 711
Premedicant, drug, investigation of glycopyrrolate as a, SENGUPTA, A., *et al.* 513
Premedicants, comparison of oral triclofos, diazepam and flunitrazepam in children undergoing otolaryngological surgery, LINDGREN, L., *et al.* 283
Premedication, anticholinergic, MIRAKHUR, R. K., *et al.*, (*C*) 467
——, i.v. surgical, lorazepam and morphine for, L'ARMAND, J., *et al.* 1259
——, with droperidol, extrapyramidal syndromes after, in children, DUPRÉ, L. J., *et al.* 831
Preparation for Anaesthesia, STEVENS, A. J. (editor), (*R*) 966
Principles and Practice of Blood-gas Analysis, ADAMS, A. P., *et al.*, (*R*) 362
Prinzmetal's variant angina, during extradural anaesthesia, KRANTZ, E. M., *et al.* 945
Programmable calculator, PORCELIJN, T., *et al.*, (*C*) 465
Psychological effects, and respiratory effects of oral temazepam in volunteers, PLEUVRY, B. J., *et al.* 901
Pulmonary arteriovenous shunts, during halothane anaesthesia, in dogs, PAVLIN, D. J., *et al.* 763
Pulmonary volumes, apparent differences between, of distribution of oxygen and nitrogen measured by re-breathing: a measure of faulty extrapolation, BLACK, A. M. S., *et al.*, (*ARS*) 954P
Pyruvate dehydrogenase activity, in mammary glands of 24-hour starved lactating rats, halothane anaesthesia can block insulin stimulation of, HUTCHINSON, C. E., *et al.* 573

R 39209, a new short-acting narcotic analgesic, human volunteer studies of, KAY, B., *et al.*, (*ARS*) 631P
Rabbit, respiratory effects of a new opiate analgesic, R 39209, in the: comparison with fentanyl, BROWN, J. H., *et al.* 1101
Rabbits, physostigmine antagonizes morphine-induced respiratory depression but not analgesia in dogs and, WEINSTOCK, M., *et al.* 1171
Radial artery cannulation. *A prospective study in patients undergoing cardiothoracic surgery*, DAVIES, F. M., *et al.* 41
Radical thoraco-abdominal dissection, of retroperitoneal lymph nodes, sodium nitroprusside-induced hypotension in, STIRT, J. A., *et al.* 1045
Radioimmunoassay, to determine plasma atropine concentrations after single-dose i.v. and i.m. administration, BERGHEM, L., *et al.* 597
Rat, analgesic effect of aprotinin in the, its inhibition by naloxone, NOVELLI, G. P., *et al.* 1107
——, comparison of the neuromuscular blocking properties of Org NC 45 and pancuronium in the, cat and rhesus monkey, DURANT, N. N., *et al.* 723
Rate of infection, and spread, of extradural solutions, BURN, J. M. B., *et al.*, (*C*) 707
Re-breathing, apparent differences between pulmonary volumes of distribution of oxygen and nitrogen measured by, a measure of faulty extrapolation, BLACK, A. M. S., *et al.*, (*ARS*) 954P
Red cell survival, effect of fine screen filtration of banked blood on, BROWNING, J. D., *et al.* 299
Reflex bronchoconstriction, i.v. lignocaine in, and allergic bronchoconstriction, DOWNES, H., *et al.* 873
Regurgitation, during laparoscopy, DUFFY, B. L., (*C*) 960
——, during laparoscopy, SCOTT, D. B., (*C*) 559
Relative potency, of Org NC 45, pancuronium, alcuronium and tubocurarine in anaesthetized man, KRIEG, N., *et al.* 783
Relieving acute pain, SPENCE, A. A., (*E*) 245
Renal disease, plasma concentrations of fentanyl in patients with severe, and hepatic disease, and in normal surgical patients, CORALL, I. M., *et al.*, (*EAA*) 101P
Renal function, effect of acute hypocapnia on, in the dog artificially ventilated with nitrous oxide, oxygen and halothane, HUNTER, J. M., *et al.*, 197
——, effect of anaesthesia with nitrous oxide in oxygen and fentanyl on, in the artificially ventilated dog, HUNTER, J. M., *et al.* 343
Renal Function in Anaesthesia and Surgery, BEVAN, D. R., (*R*) 709
Renal plasma flow, effective, effect of droperidol on dopamine-induced increase in, in dogs, BRADSHAW, E. G., *et al.* 879
Renin–angiotensin–aldosterone system, effects of extra-corporeal circulation on, ARROYO, J. L., *et al.*, (*EAA*) 107P

Repeated inhalation anaesthetics, hepatoxicity of, SEAR, J. W., (*C*) 839
Respiratory, and psychological effects of oral temazepam in volunteers, PLEUVRY, B. J., *et al.* 901
Respiratory airways resistance, influence of halothane and enflurane on, and specific conductance in anaesthetized man, LEHANE, J. R., *et al.* 773
Respiratory depression, after extradural morphine, CHRISTENSEN, V., (*C*) 841
——, physostigmine antagonizes morphine-induced, but not analgesia in dogs and rabbits, WEINSTOCK, M., *et al.* 1171
Respiratory effects, of a new opiate analgesic, R 39209, in the rabbit: comparison with fentanyl, BROWN, J. H., *et al.* 1101
Respiratory function, during cervical and thoracic extradural analgesia in patients with normal lungs, TAKASAKI, M., *et al.* 1271
Respiratory gas exchange, in ventilated patients, ABDUL-RASOOL, I. H., *et al.*, (*ARS*) 955P
Respiratory Intensive Care Nursing, 2nd edn. from Beth Israel Hospital, Boston, MORRISON, M. L. (editor), (*R*) 1058
Respiratory muscle paralysis, and hand paralysis, produced by Org NC 45 in man, NORMAN, J., *et al.*, (*ARS*) 956P
Respiratory pattern, changes in the, induced by halothane in the cat, NISHINO, T., *et al.* 1191
Resuscitation, minimum artificial lung expansion necessary for, of the newborn lamb, VAUGHAN, R. S., *et al.* 189
Rhabdomyolysis, anaesthesia-induced, in Duchenne muscular dystrophy, BOLTSHAUSER, E., *et al.*, (*C*) 559
Rhesus monkey, comparison of the neuromuscular properties of Org NC 45 and pancuronium in the, cat and rat, DURANT, N. N., *et al.* 723
Royal Society, Japanese Society for the Promotion of Science—fellowships, NUNN, J. F., (*C*) 638

Saphenous vein, direct effects of trimetaphan on the dog mesenteric artery and, CASTRO-TAVARES, J. 769
Sclerosis, progressive systemic. Prolonged sensory blockade following regional anaesthesia in association with a reduced response to systemic analgesics, NEILL, R. S. 623
Screening, of certain anaesthetic agents for their ability to elicit acute porphyric phases in susceptible patients, BLEKKENHORST, G. H., *et al.* 759
Self-Assessment of Current Knowledge in Anesthesiology, 2nd edn, TRICKEY, D. L., (*R*) 709
Sensory blockade, prolonged, following regional anaesthesia in association with a reduced response to systemic analgesics. Progressive systemic sclerosis. NEILL, R. S. 623
Short-acting narcotic analgesic, new, human volunteer studies of R 39209, KAY, B., *et al.*, (*ARS*) 631P
Siemens–Elema CO_2 Analyzer, clinical studies of gas exchange during ventilatory support—a method using the, OLSSON, S. G., *et al.* 491
Sitting position, cardiovascular responses to the, ALBIN, M. S., *et al.*, (*C*) 961
Sleep apnoea, obstructive, perioperative considerations in the management of tracheotomy for the, patient. *Three illustrative cases,* RAFFERTY, T. D., *et al.* 619
Small intestine, canine, some effects of i.v. anaesthetic agents on the, HEALY, T. E. J., *et al.*, (*ARS*) 635P
Smooth muscle, tracheal guineapig, effects of anaesthetics on, OKUMURA, F., *et al.* 199
Smooth muscle contracture, in malignant hyperpyrexia, MITCHELL, H. W., *et al.*, (*C*) 637
Sodium bicarbonate, effect on the kinetics of bupivacaine in i.v. regional anaesthesia in dogs, DONCHIN, Y., *et al.* 969
Sodium nitroprusside,-induced hypotension in radical thoraco-abdominal dissection of retroperitoneal lymph nodes, STIRT, J. A., *et al.* 1045
Solubility, and distribution of halothane in human blood, PANG, Y. C., *et al.* 851
Solubility coefficient, of acetylene in blood, a simple method to determine the, MALE, C. G., (*ARS*) 630P
Specific conductance, influence of halothane and enflurane on respiratory airflow resistance and, in anaesthetized man, LEHANE, J. R., *et al.* 773
Spinal anaesthesia, and general anaesthesia in total hip replacement: frequency of deep vein thrombosis, THORBURN, J., *et al.* 1117
——, comparison of the effects of, and general anaesthesia on postoperative oxygenation and perioperative mortality, MCKENZIE, P. J., *et al.* 49
——, effect of baricity on, with amethocaine, BROWN, D. T., *et al.* 589
Split skin grafts, new anaesthetic formulation for epicutaneous application tested for cutting, OHLSÉN, L., *et al.* 413
Spread, and rate of infection, of extradural solutions, BURN, J. M. B., *et al.*, (*C*) 707
Steroid anaesthesia, PRYS-ROBERTS, C., *et al.*, (*E*) 363
Steroid muscle relaxants, development of new, CRUL, J. F., *et al.*, (*EAA*) 108P
Steroids, protective effect of, on cultured cells damaged by high concentrations of oxygen, STURROCK, J. E., *et al.* 567
Stored blood, activity of carbonic anhydrase in, PONTE, J., *et al.* 867
Subarachnoid spinal nerve block, effects of, and arterial P_{CO_2}, on colon blood flow in the dog, AITKENHEAD, A. R., *et al.* 1071
Subjective effects, comparison of and plasma concentrations following oral and i.m. administration of flunitrazepam in patients, MCGOWAN, W. A. W., *et al.* 447
——, comparison of, and plasma concentrations following oral and i.m. administration of flunitrazepam in volunteers, CLARKE, R. S. J., *et al.* 437
Supraclavicular brachial plexus block, using a nerve stimulator and an insulated needle, YASUDO, I., *et al.* 409
Surgery, anaesthesia and motilin concentrations: a preliminary report, RUTTER, D. V., *et al.*, (*ARS*) 953P
Survival, influence of anaesthetic agent on, following endotoxin shock, BAVISTER, P. H., *et al.*, (*ARS*) 232P
Suxamethonium, and postoperative muscle pains, BRODSKY, J. B., *et al.* 215
——, and thiopentone–nitrous oxide–halothane anaesthesia: pretreatment with pancuronium and gallamine, JØRGENSEN, B. C., *et al.* 1277
——, behaviour of the neuromuscular blockade produced by, or dioxonium, TAMMISTO, T., *et al.*, (*EAA*) 102P
——, cardiac effects of atropine and gallamine in patients receiving, VIBY-MOGENSEN, J., *et al.* 1137
——, i.v. regional test, muscular paralysis following, SCHREIBER, W., *et al.*, (*C*) 842
——, prolongation of, following plasma exchange, LUMLEY, J. 1149
Suxamethonium-induced, changes in cardiac rate and rhythm, comparative study of atropine and glycopyrrolate on, COZANITIS, D. A., *et al.* 291
Swine, site of the muscle cell abnormality in, susceptible to malignant hyperpyrexia, OKUMURA, F., *et al.* 377
Sympathetic ganglia, effect of ketamine on transmission in, MAHMOODI, V., *et al.* 371

Systemic disease, the eye as a mirror of, CLIFFORD ROSE, F., *et al.* 695

Temazepam, oral, comparison with i.v. diazepam. Sedation for upper gastro-intestinal endoscopy. DOUGLAS, J. G., *et al.* 811
——, oral, respiratory and psychological effects of, in volunteers, PLEUVRY, B. J., *et al.* 901
Temperature, effects of, and adenosine triphosphate and magnesium concentrations on the contraction of actomyosin isolated from halothane-sensitive and -insensitive German Landrace pigs, GREEN, R. A., *et al.* 319
Temperature alarm, and cut-out system for use with heated water humidifier, WHITEHURST, P., *et al.* 557
Temperature monitoring, during general anaesthesia, CROCKER, B. D., *et al.* 1223
Termination of pregnancy, anaesthesia for, GRANT, I. S., (*E*) 711
Theatre personnel, blood concentrations of nitrouxs oxide in theatre personnel, KRAPEZ, J. R., *et al.* 1143
The Control of Chronic Pain, LIPTON, S., (*R*) 560
The Parisian Education of an American Surgeon: Letters of Jonathan Mason Warren (1832–1835), JONES, R. M. (notes and introduction), (*R*) 844
Thiopentone, another look at acute tolerance to, TONER, W., *et al.* 1005
——, comparison of the cardiovascular effects of bolus *v.* incremental administration of, SELTZER, J. L., *et al.* 527
——, local complications of, HARRIS, P. A., (*C*) 840
——, method of studying the dosage of, HENSHAW, J. S., *et al.*, (*ARS*) 957P
——, midazolam—an alternative to?, GAMBLE, J. A. S., *et al.*, (*ARS*) 951P
——, pharmacokinetics of, in a group of young women and a group of young men, CHRISTENSEN, J. H., *et al.* 913
——, prolongation of anaesthesia by probenecid, KAUKINEN, S., *et al.* 603
——, some factors influencing plasma concentrations at waking, DUNDEE, J. W., *et al.*, (*EAA*) 101P
Thiopentone–nitrous oxide–halothane anaesthesia, and suxamethonium: pretreatment with pancuronium and gallamine, JØRGENSEN, B. C., *et al.* 1277
Thoracic extradural anaesthesia, and cervical extradural anaesthesia, respiratory function during, in patients with normal lungs, TAKASAKI, M., *et al.* 1271
Thoraco-abdominal dissection, radical, of retro-peritoneal lymph nodes, sodium nitroprusside-induced hypotension in, STIRT, J. A., *et al.* 1045
Thoracotomy, effects of doxapram on postoperative pulmonary complications following, SEBEL, P. S., *et al.* 81
Thrombosis, deep vein, frequency of, with spinal and general anaesthesia in total hip replacement anaesthesia, THORBURN, J., *et al.* 1117
Thyroid function, neonatal, and anaesthesia, HALEVY, S., *et al.* 975
Time of death, of an organ donor, ELLIS, F. R., (*E*) 1169
Tobramycin, effect on mammalian nerve–muscle preparation, CORRIGAN, J. P., *et al.*, (*ARS*) 237P
Tofizopam, comparative study of the clinical effects of, nitrazepam and placebo as oral premedicants, PAKKENEN, A., *et al.* 1009
Tolerance, acute, to thiopentone, another look at, TONER, W., *et al.* 1005
Topics in Anaesthesia and Intensive Care, THORNTON, J. A., *et al.*, (*R*) 361
Torsion, of the inner tube, INGLIS, M. S., (*C*) 705
T-piece systems, optimum fresh gas and ventilatory requirements during controlled ventilation with, CONWAY, C. M., (*EAA*) 106P
Tracheal intubation, changes the shape of the occlusion pressure wave, SCOTT, D. H. T., *et al.*, (*ARS*) 232P
Tracheal smooth muscle, effects of anaesthetics on guineapig, OKUMURA, F., *et al.* 199
Tracheal surgery, anaesthetic management of, using the neodynium–yttrium–aluminium–garnet laser, VOURC'H, G., *et al.*, (*EAA*) 105P; 993
Tracheotomy, perioperative considerations in the management of, for the obstructive sleep apnoea patient. *Three illustrative case reports,* RAFFERTY, T. D., *et al.* 619
Transmission, effect of ketamine on, in sympathetic ganglia, MAHMOODI, V., *et al.* 371
——, neuromuscular, maturation of, in the infant, GOUDSOUZIAN, N. G. 205
Triclofos, comparison of oral with diazepam and flunitrazepam as premedicants in children undergoing otolaryngological surgery, LINDGREN, L., *et al.* 283
Trimetaphan, direct effects of, on the dog mesenteric artery and saphenous vein, CASTRO-TAVARES, J. 769
Tubocurarine, neuromuscular block, failure of neostigmine to prevent, in the isolated arm, FELDMAN, S. A., *et al.* 1199
——, pharmacokinetics of, administered by combined i.v. bolus and infusion, RAMZAN, M. I., *et al.* 893
——, relative potency of, and Org NC 45, pancuronium and alcuronium in anaesthetized man, KRIEG, N., *et al.* 783
Tympanic membrane rupture, during nitrous oxide anaesthesia, SRIVASTAVA, S., (*C*) 961

Ultra-violet halothane meter, an improved, DIPROSE, K. V., *et al.* 1155
Upper gastro-intestinal endoscopy, sedation for. A comparison of oral temazepam and i.v. diazepam, DOUGLAS, J. G., *et al.* 811

Vancouver Style, not all the way on the, SPENCE, A. A., (*E*) 469
Vaporizer, enfluratec, DAVIES, J. R., (*C*) 356
Vascular resistance, increased, in atelectatic lungs: relative contributions of active vasoconstriction and mechanical obstruction, BJERTNAES, L. J., *et al.*, (*EAA*) 105P
Vasoactive intestinal peptide, in the perioperative period, ZIDEMAN, D. A., *et al.*, (*ARS*) 952P
Vasodilatation, combined therapy of, with low-output syndrome and positive inotropic stimulation in patients after open-heart surgery, VAN ACKERN, K., *et al.*, (*EAA*) 104P
Ventilated patients, respiratory gas exchange in, ABDUL-RASOOL, I. M., *et al.*, (*ARS*) 955P
Ventilation, asynchronous independent lung, (AILV), HILLMAN, K. M., *et al.*, (*ARS*) 233P
——, cardiorespiratory effects of high frequency intermittent positive pressure, in the dog, CHAKRABARTI, M. K., *et al.* 475
Ventilatory depression, of the newborn of women receiving pethidine or pentazocine. *A double-blind comparative trial,* REFSTAD, S. O., *et al.* 265
——, related to plasma fentanyl concentrations during and after anaesthesia, GILL, K. J., *et al.*, (*ARS*) 632P
Ventilatory management, of neonates undergoing surgery. *A review of the first 3 years' experience in a neonatal surgical intensive care unit,* MACKERSIE, A. M., *et al.* 273
Ventilatory pressures, and functional residual capacity during positive-pressure ventilation at high frequencies, JONZON, A., *et al.* 395

Ventilatory requirements, and optimum fresh gas, during controlled ventilation with T-piece systems, CONWAY, C. M., (*EAA*) 106P
Ventilatory support, clinical studies of gas exchange during, —a method using the Siemens–Elema CO_2 Analyzer, OLSSON, S. G., *et al.* 491
Viral hepatitis, PEUTHERER, J. F., *et al.*, (*C*) 964
Volatile reductive metabolites, time-course of formation of, of halothane in humans and an animal model, GOURLAY, G. K., *et al.* 331
Waking, some factors influencing plasma thiopentone concentrations at, DUNDEE, J. W., *et al.*, (*EAA*) 101P
Wright peak flow meters, calibration of some, FISHER, J., *et al.* 461

CONTENTS

JANUARY

EDITORIAL: Maternal mortality and anaesthesia 1
D. D. Moir

EXPERIMENTAL

Dynamic behaviour of the chest and of the abdomen in anaesthetized piglets during rapid insufflation 5
M. Arborelius jr and S. Lindahl

Porcine malignant hyperthermia. VII: Hepatic metabolism 11
G. M. Hall, J. N. Lucke, R. Lovell and D. Lister

24-Hour Althesin–fentanyl anaesthesia in dogs. Time course of haemodynamic changes .. 19
G. Michalot, P. Girardet, F. Grimbert, D. Piasentin and B. Stieglitz

Effect of biliary excretion on ketamine anaesthesia in the rat 23
S. J. Ireland and A. Livingston

CLINICAL INVESTIGATION

Mass spectrometer measurement of oxygen uptake and carbon dioxide exchange during cardiopulmonary bypass 29
T. R. Abbott, B. Goodwin, G. Clark and G. J. Rees

Radial artery cannulation. *A prospective study in patients undergoing cardiothoracic surgery* .. 41
F. M. Davis and J. M. Stewart

Comparison of the effects of spinal anaesthesia and general anaesthesia on postoperative oxygenation and perioperative mortality 49
P. J. McKenzie, H. Y. Wishart, K. M. S. Dewar, I. Gray and G. Smith

Lumbar extradural injection pressures in pregnant women. *An investigation of relationships between rate of injection, injection pressures and extent of analgesia* 55
R. P. Husemeyer and D. C. White

The anaesthetic machine—a study of function and design 61
G. Boquet, J. A. Bushman and H. T. Davenport

Neuromuscular blockade by neostigmine in anaesthetized man 69
J. P. Payne, R. Hughes and S. Al Azawi

Complement-mediated reactions to diazepam with Cremophor as solvent (Stesolid MR) 77
M. S. Hüttel, A. Schou Olesen and E. Stoffersen

Effects of doxapram on postoperative pulmonary complications following thoracotomy 81
P. S. Sebel, E. J. Kershaw and W. S. Rao

Evaluation of glycopyrrolate and atropine as adjuncts to reversal of non-depolarizing neuromuscular blocking agents in a "true-to-life" situation 85
D. A. Cozanitis, J. W. Dundee, J. D. Merrett, C. J. Jones and R. K. Mirakhur

I.v. practolol during microlaryngoscopy. Effect on arterial pressure, heart rate, blood glucose and lipolysis 91
O. Werner, J. Magnusson, R. Fletcher, P. Nilsson-Ehle and O. Pahlm

APPARATUS

Accuracy of new gas flowmeters 97
J. Waaben, M. M. Brinkløv and D. B. Stokke

ABSTRACTS

Proceedings of the European Academy of Anaesthesiologists, London Meeting, October 11–13, 1979 101

FEBRUARY

EDITORIAL: Muscle 109
F. R. Ellis and J. Norman

SYMPOSIUM ON MUSCLE

The physiology of striated muscle 111
K. Floyd

Muscle biochemistry 123
J. A. Illingworth

Pathology of muscle 139
P. H. Buxton

Inherited muscle disease 153
F. R. Ellis

Malignant hyperthermia—pearls out of swine? .. 165
G. M. Hall, J. N. Lucke and D. Lister

Neuromuscular pharmacology. *A clinical update and commentary* 173
C. Lee and R. L. Katz

EXPERIMENTAL

Minimum artificial lung expansion necessary for resuscitation of the newborn lamb 189
R. S. Vaughan, W. W. Mapleson, M. Rosen and K. M. Laurence

Effect of acute hypocapnia on renal function in the dog artificially ventilated with nitrous oxide, oxygen and halothane 197
J. M. Hunter, R. S. Jones and J. E. Utting

Effects of anaesthetics on guineapig tracheal smooth muscle 199
F. Okumura and M. A. Denborough

CLINICAL INVESTIGATION

Maturation of neuromuscular transmission in the infant 205
N. G. Goudsouzian

Postoperative muscle pains and suxamethonium 215
J. B. Brodsky and J. Ehrenwerth

Enflurane in outpatient paediatric dental anaesthesia. A comparison with halothane 219
R. H. A. Hoyal, C. Prys-Roberts and P. J. Simpson

Adverse effects of buffered glutaraldehyde on the Heidbrink expiratory valve 223
S. M. Mostafa

ABSTRACTS

Proceedings of the Anaesthetic Research Society, London Meeting, November 23, 1979 .. 229P

CORRESPONDENCE

Consciousness during anaesthesia 241

Extradural space 241

Pharmacokinetics of minaxolone 241

Inefficiency of antacid in prevention of aspiration pneumonia 241
I.v. equipment design and infection 242
Delayed blockage in an extradural catheter .. 242

BOOK REVIEWS
Outpatient Anaesthesia 243
Dangerous Mistakes in Drug Administration: 1979 243
Clinical Pharmacology: Basic Principles in Therapeutics 243
Monitoring Patients in The Operating Room .. 244
Diabetes Mellitus 244
Practical Anaesthetic Pharmacology 244

MARCH

EDITORIAL 245

CLINICAL INVESTIGATION
Observations on extradural morphine analgesia in various pain conditions 247
F. Magora, D. Olshwang, D. Eimerl, J. Shorr, R. Katzenelson, S. Cotev and J. T. Davidson
Posterior intercostal nerve block for pain relief after cholecystectomy. *Anatomical basis and efficacy* 253
J. F. Nunn and G. Slavin
Constrictive effect of pancuronium on capacitance vessels 261
C. Lee, E. Yang and M. Lippmann
Ventilatory depression of the newborn of women reveiving pethidine or pentazocine. *A double-blind comparative trial* 265
S. O. Refstad and E. Lindbæk
Ventilatory management of neonates undergoing surgery. *A review of the first 3 years' experience in a neonatal surgical intensive care unit* .. 273
A. M. Mackersie, D. J. Hatch and G. M. Farnsworth
Behaviour of unsedated children in the anaesthetic room 279
D. G. Beeby and J. O. Morgan Hughes
Comparison of oral triclofos, diazepam and flunitrazepam as premedicants in children undergoing otolaryngological surgery 283
L. Lindgren, L. Saarnivaara and J.-J. Himberg
Comparative study of atropine and glycopyrrolate on suxamethonium-induced changes in cardiac rate and rhythm 291
D. A. Cozanitis, J. W. Dundee and M. M. Khan
A double-blind comparison of meptazinol with pethidine in postoperative pain 295
A. Hedges, P. Turner and J. Wadsworth
Fine screen filtration of banked blood: effect on red cell survival 299
J. D. Browning, I. C. M. Gray and I. McA. Ledingham

EXPERIMENTAL
Plasma concentrations of noradrenaline and adrenaline and plasma renin activity during extradural blockade in dogs 305
B. Stanek, M. Schwarz, M. Zimpfer and G. Raberger
Inhibition of neuronal uptake of noradrenaline in the isolated perfused rat heart by pancuronium and its homologues, Org. 6368, Org. 7268 and NC 45 313
P. J. Salt, P. K. Barnes and C. M. Conway
Effects of temperature, adenosine triphosphate and magnesium concentrations on the contraction of actomyosin isolated from halothane-sensitive and -insensitive German Landrace pigs 319
R. A. Green, G. Mitchell and J. J. A. Heffron
The nature of gentamicin-induced neuromuscular block 325
T. A. Torda
Time-course of formation of volatile reductive metabolites of halothane in humans and an animal model 331
G. K. Gourlay, J. F. Adams, M. J. Cousins and J. H. Sharp
Circulatory responses of the dog to acute isovolumic anaemia in the presence of high-grade adrenergic beta-receptor blockade 337
T. N. S. Clarke, P. Foëx, J. G. Roberts, C. A. Saner and M. J. Bennett
Effect of anaesthesia with nitrous oxide in oxygen and fentanyl on renal function in the artificially ventilated dog 343
J. M. Hunter, R. S. Jones and J. E. Utting
Preliminary *in vitro* study of diazepam and droperidol on oestrus rat uterus 349
A. A. Khan

CORRESPONDENCE
Anaphylactoid type adverse responses 355
Equations 356
Enfluratec vaporizer 356
Analgesic action of extradural fentanyl 357
Metallized plastic sheeting 359
The Toad in the Hole: an hypothesis to explain the action of anaesthetics 359
Pancuronium plasma clearance and age 360

BOOK REVIEWS
Topics in Anaesthesia and Intensive Care 361
Development of Volatile Inhalational Anaesthetics .. 361
Developments in Clinical Nutrition 361
Principles and Practice of Blood-gas Analysis .. 362
Local Analgesia 362
A Practice of Anaesthesia 362

APRIL

EDITORIAL: Steroid anaesthesia 363
C. Prys-Roberts and J. Sear

EXPERIMENTAL
Antagonism of ketamine–diazepam anaesthesia by 4-aminopyridine in human volunteers 367
S. Agoston, P. J. Salt, W. Erdmann, T. Hilkemeijer, A. Bencini and D. Langrehr
Effect of ketamine on transmission in sympathetic ganglia 371
V. Mahmoodi, A. J. Byrne, T. E. J. Healy and S. Z. Hussain
Site of the muscle cell abnormality in swine susceptible to malignant hyperpyrexia 377
F. Okumura, B. D. Crocker and M. A. Denborough

Response of MHS swine to i.v. infusion of lignocaine and bupivacaine 385
G. G. Harrison and D. F. Morrell

Half-life of angiotensin II in the conscious and barbiturate-anaesthetized rat 389
B. J. Chapman, D. P. Brooks and K. A. Munday

Functional residual capacity and ventilatory pressures during positive-pressure ventilation at high frequencies 395
A. Jonzon, Z. Rondio and G. Sedin

CLINICAL INVESTIGATION

Artery-to-muscle onset time for neuromuscular blocking drugs 403
B. Minsaas and J. Stovner

Supraclavicular brachial plexus block using a nerve stimulator and an insulated needle 409
I. Yasuda, T. Hirano, T. Ojima, N. Ohhira, T. Kaneko and M. Yamamuro

New anaesthetic formulation for epicutaneous application tested for cutting split skin grafts .. 413
L. Ohlsén and S. Englesson

Comparison of carbonated bupivacaine and bupivacaine hydrochloride for extradural anaesthesia 419
D. T. Brown, D. H. Morison, B. G. Covino and D. B. Scott

Placental transfer and neonatal effects of diazepam when administered to women just before delivery 423
C. B. McAllister

Comparison of three benzodiazepines for oral premedication in minor gynaecological surgery .. 429
C. G. Male, Y. T. Lim, M. Male, J. M. Stewart and J. M. Gibbs

Comparison of the subjective effects and plasma concentrations following oral and i.m. administration of flunitrazepam in volunteers 437
R. S. J. Clarke, J. W. Dundee, W. A. W. McGowan and P. J. Howard

Comparison of the subjective effects and plasma concentrations following oral and i.m. administration of flunitrazepam in patients 447
W. A. W. McGowan, J. W. Dundee, R. S. J. Clarke and P. J. Howard

A double-blind comparison between fentanyl and buprenorphine in analgesic-supplemented anaesthesia 453
B. Kay

CASE REPORT

An unusual case of Mendelson's Syndrome .. 459
R. S. Vaughan, G. A. D. Rees and G. L. Williams

APPARATUS

Calibration of some Wright peak flow meters .. 461
J. Fisher and A. Shaw

CORRESPONDENCE

Programmable calculator 465

2-Chloroprocaine combined with bupivacaine .. 465

Humidification in anaesthesia 466

Anticholinergic premedication 467

BOOK REVIEWS

Medical Management of the Critically Ill 468

Practical Dental Anaesthesia 468

Clinical and Resuscitative Data 468

MAY

EDITORIAL: Not all the way on the Vancouver Style 469
A. A. Spence

EXPERIMENTAL

Enflurane has no effect on haemopoiesis in mice . 471
J. M. Baden, B. Egbert and S A. Rice

Cardiorespiratory effects of high frequency intermittent positive pressure ventilation in the dog 475
M. K. Chakrabarti and M. K. Sykes

CLINICAL INVESTIGATION

Death associated with anaesthesia in Finland .. 483
M. Hovi-Viander

Clinical studies of gas exchange during ventilatory support—a method using the Siemens-Elema CO_2 Analyzer 491
S. G. Olsson, R. Fletcher, B. Jonson, L. Nordström and O. Prakash

Comparative effects of calcium chloride and calcium gluceptate 501
L. J. Drop and D. J. Cullen

Chronic hypercalcaemia secondary to hyperparathyroidism: a risk factor during anaesthesia? 507
M. A. Gunst and L. J. Drop

Investigation of glycopyrrolate as a premedicant drug 513
A. Sengupta, P. K. Gupta and K. Pandey

I.v. flunitrazepam and i.v. diazepam in conservative dentistry. *A cross-over trial* 517
R. A. Dixon, N. R. Bennett, M. J. Harrison, C. Kenyon and J. A. Thornton

Comparison of the cardiovascular effects of bolus *v.* incremental administration of thiopentone . 527
J. L. Seltzer, J. I. Gerson and F. B. Allen

Pancuronium in Caesarean section and its placental transfer 531
E. Abouleish, L. B. Wingard, S. de la Vega and N. Uy

Plasma concentration and metabolism of phenoperidine in man 537
L. Milne, N. E. Williams, T. N. Calvey, G. R. Murray and K. Chan

Prolonged infusion of chlormethiazole in intensive care 541
D. B. Scott, D. Beamish, I. N. Hudson and K.-G. Jostell

APPARATUS

A new nerve stimulator (Myotest) 547
J. Viby-Mogensen, P. H. Hansen, B. C. Jørgensen, H. Ørding, T. Kann and B. Fries .. ..

Evaluation of the Datex CD-101 and Godart Capnograph Mark II infra-red carbon dioxide analysers 551
J. P. Blackburn and T. R. Williams

Temperature alarm and cut-out system for use with heated water humidifier 557
P. Whitehurst and D. St Andrew

CORRESPONDENCE
Regurgitation during laparoscopy 559
Anaesthesia-induced rhabdomyolysis in Duchenne muscular dystrophy 559

BOOK REVIEWS
Medical Problems and the Anaesthetist 560
Illustrated Handbook in Local Anaesthesia .. 560
The Control of Chronic Pain 560

JUNE

EDITORIAL: Fentanyl and the metabolic response to surgery 561
G. M. Hall

EXPERIMENTAL
Changes of the cell bodies in the facial nucleus after facial nerve block 563
T. Totoki, K. Harano, Y. Aika and T. Kanaseki

Protective effect of steroids on cultured cells damaged by high concentrations of oxygen .. 567
J. E. Sturrock and G. H. Hulands

Halothane anaesthesia can block insulin stimulation of pyruvate dehydrogenase activity in mammary glands of 24-hour starved lactating rats.. 573
C. E. Hutchinson and H. G. Coore

Halothane improves the balance of oxygen supply to demand in acute experimental myocardial ischaemia 577
G. Smith, K. Rogers and J. Thorburn

Effect of low concentrations of halothane on the oxygen electrode 585
T. Maekawa, Y. Okuda and D. G. McDowall

CLINICAL INVESTIGATION
Effect of baricity on spinal anaesthesia with amethocaine 589
D. T. Brown, J. A. W. Wildsmith, B. G. Covino and D. B. Scott

Plasma atropine concentrations determined by radioimmunoassay after single-dose i.v. and i.m. administration 597
L. Berghem, U. Bergman, B. Schildt and B. Sörbo

Prolongation of thiopentone anaesthesia by probenecid 603
S. Kaukinen, M. Eerola and P. Ylitalo

Local reactions to i.v. diazepam in three different formulations 609
A. Schou Olesen and M. S. Hüttel

Comparison of i.m. lysine acetylsalicylate and oxycodone in the treatment of pain after operation 613
K. Korttila, O. M. Pentti and J. Auvinen

CASE REPORTS
Perioperative considerations in the management of tracheotomy for the obstructive sleep apnoea patient. *Three illustrative case reports* 619
T. D. Rafferty, A. Ruskis, C. Sasaki and J. B. Gee

Progressive systemic sclerosis. Prolonged sensory blockade following regional anaesthesia in association with a reduced response to systemic analgesics 623
R. S. Neill

APPARATUS
A simple and inexpensive device for administration of continuous positive airway pressure breathing 627
M. Bagger

ABSTRACTS
Proceedings of the Anaesthetic Research Society, Nottingham Meeting, March 21, 1980 .. 629

CORRESPONDENCE
Extradural pethidine 637
Smooth muscle contracture in malignant hyperpyrexia 637
Mechanism of action of ketamine 638
Anaesthesia for laryngoscopy 638
Royal society/Japanese society for the promotion of science—fellowships 638

BOOK REVIEWS
Dental Anaesthesia and Analgesia (Local and General) 639
Local Analgesia 639
Lactate in Acute Conditions 639
Cardiovascular Physiology for Anesthesiologists .. 640
Muscle Relaxants 640
Monitoring Cerebral Function: Long-term Recording of Cerebral Electrical Activity 640

JULY

EDITORIAL: Anaesthesia for eye surgery .. 641
A. A. Spence

SYMPOSIUM ON ANAESTHESIA AND THE EYE
The changing pattern of eye surgery 643
W. S. Foulds
Functional organization of the human eye .. 649
J. L. Jay
Aspects of measurement in ophthalmology .. 655
M. LeMay
Anaesthesia for eye surgery: general considerations 663
A. K. Adams and R. M. Jones
Control of the eye during general anaesthesia for intraocular surgery 671
K. B. Holloway
Anaesthesia for eye surgery in children 681
D. S. Arthur and K. M. S. Dewar
Local anaesthesia and the eye 689
E. D. Allen and A. R. Elkington
The eye as a mirror of systemic disease 695
F. Clifford Rose and J. Fasler

CORRESPONDENCE

Occlusion of dorsalis pedis artery 705
Torsion of the inner tube 705
Apparatus failure—cause for concern 705
Minaxolone and malignant hyperthermia 706
4-Aminopyridine fails to induce porcine malignant hyperthermia 707
Rate of injection and spread of extradural solutions 707
Effects of intraoperative nefopam (Acupan) .. 708
Arrhythmias and the carotid artery 708

BOOK REVIEWS

Self-Assessment of Current Knowledge in Anesthesiology 709
Pain 709
Renal Function in Anaesthesia and Surgery .. 709
Electrocardiography for the Anaesthetist 710

AUGUST

EDITORIAL: Anaesthesia for termination of pregnancy 711
I. S. Grant

EXPERIMENTAL

On-line P_{O_2} and P_{N_2O} analysis with an *in vivo* catheter electrode 715
W. N. Brooks, C. E. W. Hahn, P. Foëx, P. Maynard and W. J. Albery

Comparison of the neuromuscular blocking properties of Org NC 45 and pancuronium in the rat, cat and rhesus monkey 723
N. N. Durant, M. C. Houwertjes and J. F. Crul

Animal studies of the anaesthetic activity of ICI 35 868 731
J. B. Glen

Pharmacokinetics in laboratory animals of ICI 35 868, a new i.v. anaesthetic agent 743
H. K. Adam, J. B. Glen and P. A. Hoyle

Effect of experimental cholestasis on neuromuscular blocking drugs in cats 747
P. Westra, M. C. Houwertjes, A. R. de Lange, A. H. J. Scaf, F. R. Hindriks and S. Agoston

Screening of certain anaesthetic agents for their ability to elicit acute porphyric phases in susceptible patients 759
G. H. Blekkenhorst, G. G. Harrison, E. S. Cook and L. Eales

Pulmonary arteriovenous shunts during halothane anaesthesia in dogs 763
D. J. Pavlin, J. Ferens, D. R. Allen and F. W. Cheney

Direct effects of trimetaphan on the dog mesenteric artery and saphenous vein 769
J. Castro-Tavares

CLINICAL INVESTIGATION

Influence of halothane and enflurane on respiratory airflow resistance and specific conductance in anaesthetized man 773
J. R. Lehane, C. Jordan and J. G. Jones

Relative potency of Org NC 45, pancuronium, alcuronium and tubocurarine in anaesthetized man .. 783
N. Krieg, J. F. Crul and L. H. D. J. Booij

Fazadinium pharmacokinetics in patients with liver disease 789
P. Duvaldestin, J. Saada, D. Henzel and G. Saumon

Pharmacokinetics of high-dose fentanyl. *A study in patients undergoing cardiac surgery* 795
J. G. Bovill and P. S. Sebel

Induction of anaesthesia with etomidate: haemodynamic study of 36 patients 803
A. Criado, J. Maseda, E. Navarro, A. Escarpa and F. Avello

Preliminary experience with ICI 35 868 as an i.v. induction agent: comparison with Althesin .. 807
K. M. Rogers, K. M. S. Dewar, T. D. McCubbin and A. A. Spence

Sedation for upper gastro–intestinal endoscopy. *A comparison of oral temazepam and i.v. diazepam* 811
J. G. Douglas, W. S. Nimmo, R. Wanless, D. R. Jarvie, R. C. Heading and N. D. C. Finlayson

Local reactions after i.v. injections of diazepam, flunitrazepam and isotonic saline 817
H. Mikkelsen, T. M. Hoel, H. Bryne and C. D. Krohn

Experiences with lumbar extradural analgesia for Caesarean section 821
J. S. Crawford

Extradural block in patients who have previously undergone Caesarean section 827
C. Carlsson, G. Nybell-Undahl and I. Ingemarsson

CASE REPORTS

Extrapyramidal syndromes after premedication with droperidol in children 831
L. J. Dupré and P. Stieglitz

A previous history of acute intermittent porphyria as a complication of obstetric anaesthesia 835
S. C. Allen and G. A. D. Rees

CORRESPONDENCE

Hepatotoxicity of repeated inhalation anaesthetics 839
Local complications of thiopentone 840
Ketamine requirement in children 840
Respiratory depression after extradural morphine .. 841
Oxygen transport during dopamine infusion 841
Maternal mortality and anaesthesia 842
Johannesburg A–D circuit switch 842
Muscular paralysis following i.v. regional suxamethonium test 842
Posterior intercostal nerve block 843
Etomidate 843

BOOK REVIEWS

The Parisian Education of an American Surgeon: Letters of Jonathan Mason Warren 844

Clinical Pharmacology 846

SEPTEMBER

EDITORIAL: Dantrolene and the treatment of malignant hyperthermia 847
G. M. Hall

EXPERIMENTAL

Solubility and distribution of halothane in human blood 851
Y. C. Pang, P. E. Reid and D. E. Brooks

Interaction of calcium and potassium with neuromuscular blocking agents. 863
B. E. Waud and D. R. Waud

Activity of carbonic anhydrase in stored blood . . 867
J. Ponte, J. Johns, M. Tarr and C. Jeynes

I.v. lignocaine in reflex and allergic bronchoconstriction 873
H. Downes, N. Gerber and C. A. Hirshman

Effect of droperidol on dopamine-induced increase in effective renal plasma flow in dogs 879
E. G. Bradshaw, B. J. Pleuvry and H. L. Sharma

CLINICAL INVESTIGATION

Comparison of personal pollution monitoring techniques for use in the operating theatre 885
D. Campbell, P. D. Davis, M. M. Halliday and I. MacDonald

Pharmacokinetics of tubocurarine administered by combined i.v. bolus and infusion 893
M. I. Ramzan, E. J. Triggs and C. A. Shanks

Respiratory and psychological effects of oral temazepam in volunteers. 901
B. J. Pleuvry, S. E. Maddison, R. B. Odeh and M. E. Dodson

I.v. midazolam as an induction agent for anaesthesia: a study in volunteers. 907
A. Forster, J.-P. Gardaz, P. M. Suter and M. Gemperle

Pharmacokinetics of thiopentone in a group of young women and a group of young men 913
J. H. Christensen, F. Andreasen and J. A. Jansen

Caesarean section associated with gross obesity . . 919
R. Hodgkinson and F. J. Husain

Efficiency of two variable performance techniques of oxygen therapy in relieving postoperative hypoxaemia 925
J. B. Jacobsen, H. Nielsen, M. M. Brinklov, D. B. Stokke and J. F. Hartmann-Andersen

Comparison of haemodynamic effects of metocurine and pancuronium in patients with coronary artery disease. 931
J. Heinonen and H. Yrjölä

Experimental comparison of extradural and i.m. morphine 939
T. A. Torda, D. A. Pybus, H. Liberman, M. Clark and M. Crawford

CASE REPORT

Prinzmetal's variant angina during extradural anaesthesia 945
E. M. Krantz, J. F. Viljoen and M. S. Gilbert

ABSTRACTS

Proceedings of the Anaesthetic Research Society, Bristol Meeting, July 12, 1980 951

CORRESPONDENCE

Pain relief in dental surgery 959
Analgesic plasma concentrations 959
Diazepam and the neuromuscular junction . . . 960
Regurgitation during laparoscopy 960
Tympanic membrane rupture during nitrous oxide anaesthesia 961
Cardiovascular response to the sitting position . . 961
Oxygen transport during dopamine infusion. . . 962
Neuromuscular pharmacology. 962
Viral hepatitis 964

BOOK REVIEWS

Mechanisms of Pain and Analgesic Compounds . . 965
Anaesthesia for Children. Including Aspects of Intensive Care 965
Automatic Ventilation of the Lungs 965
Preparation for Anaesthesia 966

OCTOBER

EDITORIAL: 967

EXPERIMENTAL

Effect of sodium bicarbonate on the kinetics of bupivacaine in i.v. regional anaethesia in dogs 969
Y. Donchin, A. Ramu, D. Olshwang, Z. Nieman and F. Magora

Neonatal thyroid function and anaesthesia. . . . 975
S. Halevy, M. Liu-Barnett and P. L. Ross

Effects of non-depolarizing neuromuscular blocking agents on the cardiac vagus nerve in the guineapig 981
S. Lee Son and D. R. Waud

CLINICAL INVESTIGATION

Isobutene formation during halothane anaesthesia in man 989
V. Hempel, R. May, H. Frank, H. Remmer and U. Köster

Anaesthetic management of tracheal surgery using the neodymium–yttrium–aluminium–garnet laser. 993
G. Vourc'h, M. L. Tannières, L. Toty and C. Personne

Early extubation after Fontan operation. *A clinical report* 999
J. J. Schuller, P. S. Sebel, J. G. Bovill and C. Marcelletti

Another look at acute tolerance to thiopentone . . 1005
W. Toner, P. J. Howard, W. A. W. McGowan and J. W. Dundee

Comparative study of the clinical effects of tofizopam, nitrazepam and placebo as oral premedicants . . 1009
A. Pakkanen, J. Kanto, L. Kangas and M. Mansikka

Clinical effects of buprenorphine during and after operation 1013
H. J. McQuay, R. E. S. Bullingham, G. M. C. Paterson and R. A. Moore

Infusion model for fentanyl based on pharmacokinetic analysis 1021
J. H. Hengstmann, H. Stoeckel and J. Schüttler

Plasma cortisol concentrations during Caesarean section 1027
Y. Namba, J. B. Smith, G. S. Fox and J. R. G. Challis

Effects of concentration of local anaesthetic drugs in extradural block 1033
D. B. Scott, J. H. McClure, R. M. Giasi, J. Seo and B. G. Covino
Comparative effects of induced hypotension and normovolaemic haemodilution on blood loss in total hip arthroplasty 1039
G. Barbier-Böhm, J. M. Desmonts, E. Couderc, D. Moulin, P. Prokocimer and H. Olivier
Sodium nitroprusside-induced hypotension in radical dissection of thorace–abdominal retroperitoneal lymph nodes 1045
J. A. Stirt, E. L. Korn and R. C. Reynolds

CASE REPORT
On being aware by request. *A mother's unplanned request during the course of a Caesarean section under general anaesthesia* 1049
M. E. Tunstall

Thiopentone–nitrous oxide–halothane anaesthesia and suxamethonium: pretreatment with pancuronium and gallamine. 1277
B. C. Jørgensen, B. Eikard, J. P. Rasmussen and J. Viby-Mogensen

CASE REPORT

Obstetric anaesthesia and Ehlers–Danlos syndrome. 1283
E. Abouleish

Index to volume 52 1287

SUPPLEMENT 1

INTRODUCTION: *J. Norman and W. C. Bowman* 1S

SYMPOSIUM ON ORG NC 45

The emergence of Org NC 45, 1-[(2β, 3α, 5α, 16β, 17β)-3, 17-bis(acetyloxy)-2-(1-piperidinyl)-androstan-16-yl]-1-methyl-piperidinium bromide, from the pancuronium series 3S
D. S. Savage, T. Sleigh and I. Carlyle

ADDENDUM: The pharmaceutical formulation of Org NC 45 . . . . . 7S
H. Burger, J. Egberink and J. Lakeman

Pharmacology of Org NC 45 compared with other non-depolarizing neuromuscular blocking drugs 11S
I. G. Marshall, S. Agoston, L. H. D. J. Booij, N. N. Durant and F. F. Foldes

Comparison of the cardiovascular actions of Org NC 45 with those produced by other non-depolarizing neuromuscular blocking agents in experimental animals 21S
R. J. Marshall, J. C. McGrath, R. D. Miller, J. R. Docherty and J.-C. Lamar

Preliminary review of the interactions of Org NC 45 with anaesthetics and antibiotics in animals . . 33S
N. Krieg, J. M. J. Rutten, J. F. Crul and L. H. D. J. Booij

Pharmacokinetics and pharmacodynamics of Org NC 45 in man 37S
F. van der Veen and A. Bencini

Use of the human "isolated arm" preparation to indicate qualitative aspects of a new neuromuscular blocking agent, Org NC 45 . . . . . 43S
A. Bencini, S. Agoston and J. Ket

First clinical experiences with Org NC 45 . . 49S
J. F. Crul and L. H. D. J. Booij

The neuromuscular blocking action of Org NC 45, a new pancuronium derivative, in anaesthetized patients. *A pilot study* 53S
S. Agoston, P. Salt, D. Newton, A. Bencini, P. Boomsma and W. Erdmann

SHORT COMMUNICATIONS

A new neuromuscular blocking drug, Org NC 45. *A pilot study in man* 61S
W. L. M. Baird and D. Herd

The new non-depolarizing muscle relaxant Org NC 45 in clinical anaesthesia. *Preliminary results* 62S
W. Buzello, G. Bischoff, E. Kuhls and G. Noldge

Influence of halothane and enflurane on the neuromuscular effects of Org NC 45 in man 64S
F. F. Foldes, A. Bencini and D. Newton

Preliminary clinical observations with Org NC 45 65S
H. Schaer and G. Hossli

Org NC 45: initial experiences 66S
J. Swen

On Org NC 45 and halothane anaesthesia . . 67S
J. Viby-Mogensen, B. C. Jørgensen, J. Engbæk and B. Sørensen

SUMMARY: *R. D. Miller* 71S
